

# MONTACHUSETT METROPOLITAN PLANNING ORGANIZATION

## TRANSPORTATION IMPROVEMENT PROGRAM FFY2017 – 2021

**MPO ENDORSED**  
**August 3, 2016**

Prepared in cooperation with the Massachusetts Department of Transportation and the U.S. Department of Transportation. The views and opinions of the Montachusett Regional Planning Commission expressed herein do not necessarily state or reflect those of the Massachusetts Department of Transportation or the U.S. Department of Transportation.

The Montachusett MPO and the MRPC fully complies with Title VI of the Civil Rights Act of 1964 and related statutes and regulations in all programs and activities. The Montachusett MPO operates without regard to race, color, national origin, English Proficiency, ancestry, creed, income, gender, age and/or disability. Any person who believes him/herself or any specific class of persons, to be subject to discrimination prohibited by Title VI may by him/herself or by representative file a written complaint with the MRPC or the MMPO. Complaints are to be filed no later than 180 days from the date of the alleged discrimination. Please contact Glenn Eaton at 978-345-7376 ext. 310 for more information.

## MONTACHUSETT METROPOLITAN PLANNING ORGANIZATION ENDORSEMENT OF THE 2017 – 2021 TRANSPORTATION IMPROVEMENT PROGRAM

Whereas, the Montachusett Metropolitan Planning Organization (MMPO) has completed its review in accordance with 23 CFR Part 450 Section 324 (Development and content of the Metropolitan Transportation Plan) and 23 CFR Part 450 Section 326 (Transportation Improvement Program: General) and hereby certifies that the FFY 2017-2021 TIP is financially constrained and that it conforms to the Montachusett 2012-2035 Regional Transportation Plan. Based on the results of the review and analyses, the Montachusett 2012-2035 Regional Transportation Plan and FFY 2017-2021 TIP are consistent with the air quality goals of, and in conformity with, the Massachusetts State Implementation Plan;

Therefore, the Committee of Signatories representing the Montachusett Metropolitan Planning Organization (MMPO) by a majority vote hereby endorses the Montachusett Region FFY 2017-2021 Transportation Improvement Program (TIP).

  
Stephanie Pollack, Secretary and CEO  
Massachusetts Department of Transportation

### MPO SELF CERTIFICATION COMPLIANCE STATEMENT

This will certify that the Comprehensive, Continuing, Cooperative Transportation Planning Process for Fiscal Years 2017 and 2018 in the Montachusett Metropolitan Planning Organization is addressing major issues facing the region and is being conducted in accordance with all applicable requirements including:

1. 23 USC Section 134, 49 U.S.C. 5303, and this subpart;
2. In nonattainment and maintenance areas, sections 174 & 176 (c) & (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) & (d)) and 40 CFR part 93;
3. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
4. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
5. Section 1101 (b) of the Safe Accountable Flexible and Efficient Transportation Equity Act – a Legacy for Users (SAFETEA-LU), (Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
6. 23 CFR 230, regarding the implementation of an Equal Employment Opportunity Program on Federal and Federal-Aid construction contracts;
7. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR Parts 27, 37 and 38;
8. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
9. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
10. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.
11. Anti-lobbying restrictions found in 49 U.S.C. Part 20. No appropriated funds may be expended by a recipient to influence or attempt to influence an officer or employee of any agency, a Member of Congress, in connection with the awarding of any Federal contract.

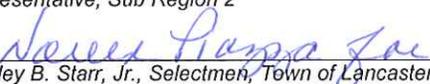

The Committee of Signatories representing the Montachusett Metropolitan Planning Organization (MMPO) by a majority vote hereby endorses the Self Certification Compliance Statement for the Montachusett MPO.

### 310 CMR 60.05: Global Warming Solutions Act Requirements for the Transportation Sector and the Massachusetts Department of Transportation

#### Self-Certification Compliance Statement for Metropolitan Planning Organizations

This will certify that the FFY 2017-2021 Transportation Improvement Program for the Montachusett Metropolitan Planning Organization is in compliance with all applicable requirements in the State Regulation 310 CMR 60.05: Global Warming Solutions Act Requirements for the Transportation Sector and the Massachusetts Department of Transportation. The regulation requires the Metropolitan Planning Organizations (MPOs) to:

1. 310 CMR 60.05, 3(b)(1)(a): Evaluate and track the GHG emissions and impacts of RTPs and TIPs;
2. 310 CMR 60.05, 3(b)(1)(b): In consultation with MassDOT, develop and utilize procedures to prioritize and select projects in RTPs, TIPs, and STIPs based on factors that include GHG emissions and impacts;
3. 310 CMR 60.05, 3(b)(1)(c): Quantify net GHG emissions and impacts resulting from the projects in RTPs and TIPs and have made efforts to minimize GHG emissions and impacts;
4. 310 CMR 60.05, 3(b)(1)(d): Determine in consultation with MassDOT that the appropriate planning assumptions used for GHG emissions modeling are consistent with local land use policies, or that local authorities have made documented and credible commitments to establishing such consistency;
5. 310 CMR 60.05, 4(a)(2)(e): Develop public consultation procedures for GHG reporting and related GWSA requirements consistent with current and approved regional public participation plans;
6. 310 CMR 60.05, 4(c): Prior to making final endorsements on the RTPs, TIPs, STIPs, and projects included in these plans, MassDOT and the MPOs shall include the GHG Assessment and information on related GWSA activities in RTPs and TIPs and provide an opportunity for public review and comment on the RTPs, and TIPs.
7. 310 CMR 60.05, 6(a): After a final GHG assessment has been made by MassDOT and the MPOs, MassDOT and the MPOs shall submit MPO-endorsed RTPs and TIPs within 30 days of endorsement to the Department for review of the GHG assessment.

## INTRODUCTION

---

### Transportation Improvement Program (TIP) Development Process

#### Requirement for Transportation Improvement Program (TIP)

This document is the product of a comprehensive, continuing and cooperative effort to improve and sustain the transportation systems of the Montachusett Region. The decisions and priorities established within are derived and shaped through outreach to and input from local officials, the Montachusett Joint Transportation Committee (MJTC), the Montachusett Regional Transit Authority (MART), the Montachusett Regional Planning Commission (MRPC), the Massachusetts Department of Transportation (MassDOT), the MassDOT Highway Division and any and all interested individuals, organizations and stakeholders in the public at large. Throughout the development and decision making process, all individuals in the Region are strongly encouraged to participate in the transportation planning process, voice any opinions or concerns and help shape and guide the development of this document.

The TIP is required to be updated at a minimum of every four (4) years by Federal Regulations issued jointly by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). This TIP is a prioritized listing of transportation projects proposed for implementation for the Montachusett Region during the future five federal fiscal years. This time period is broken down into the coming year (Year 1 Element) and the following four years (Year 2 through Year 5). The fiscal years are project specific where possible. The TIP projects are also identified by funding category so that where necessary priorities may be established for projects within each funding program. Unless otherwise noted, the agency responsible for implementing highway projects is the Massachusetts Department of Transportation Highway Division and, for transit projects, the Montachusett Regional Transit Authority. The reader will note that some of the same projects may be found again in this year's Year 1 Element because they have been delayed by various problems in their design or environmental requirements, while other projects found in last year's TIP have been removed due to implementation.

#### Procedures for Development of TIP

The MRPC staff annually develops the TIP project listing. Sources used include the MassDOT's Project Information System, MassDOT Highway Division Districts 2 and 3, local officials, the Montachusett Joint Transportation Committee, the Regional Transportation Plan (RTP), the Montachusett Metropolitan Planning Organization (MMPO), regional stakeholders, the general public and Transportation Control Measures (TCMs) identified in the Transportation Element of the State Implementation Plan (TESIP).

The local planning process conforms to the private enterprise requirements of the FTA Act, Section 5309, Section 5303 and Section 5307. Specifically this is demonstrated in the FTA Section 5307 Urban Area Formula Program. Funding from each of these grants is supplied to private transportation providers who provide, under contract, mass transportation services to the Montachusett Regional Transit Authority and to various communities to supply Council on Aging services. The private operators are Management of Transportation Services, Inc., Management of Transportation Services Gardner, Inc., Dial-A-Mart Services, Inc., and Management of Transportation Services Gardner, Athol Division. Input from all the providers is utilized in the planning process.

The MRPC has recently developed an updated Public Participation Program (PPP) that establishes the procedures utilized to ensure "opportunities for any and all interested individuals to participate early and often in the transportation decision making process." The updated PPP based upon the prior Montachusett PPP as well as MassDOT's recently developed PPP. The Montachusett PPP seeks to outline "the process that the MMPO will use to reach out to persons identified under the regulations/laws of Title VI, Environmental Justice (EJ), Limited English Proficiency (LEP), Americans With Disabilities Act (ADA) and as well as any other traditionally underrepresented population." After a 45 day public review and comment period, the PPP was endorsed by the MPO on May 25,

2016. The PPP includes provisions for the MPO to reduce the comment period for required documents to a minimum of 10 days under extraordinary circumstances. The PPP is also “considered a living document that will change, grow and adapt in order to help the MMPO sustain its work to engage diverse community members throughout its Region. Therefore, the MMPO will modify its public participation methods and activities over time, based on ideas and feedback from community members and the MMPO’s evaluation of its public participation process and effectiveness.”

In conformance with the PPP, the draft TIP is distributed for a 30 day public review and comment period. Following completion of the 30 day review period, any comments or issues received are addressed and reflected in the final TIP. This document is then reviewed by the MJTC/MRPC and MMPO and is recommended for endorsement by the Metropolitan Planning Organization (MPO) at a subsequent MMPO meeting.

The fully endorsed TIP is then distributed to Federal, State and local agencies and groups, including FTA, FHWA, the Environmental Protection Agency (EPA) and the Department of Environmental Protection (DEP), again, in conformance with the PPP.

### **Public Participation Procedures**

Throughout the development procedure, the Montachusett Transportation Improvement Program (TIP) is compiled in accordance with Title 23 CFR Section 450.324 and 310 CMR 60.03(6)h that require the TIP development provide an adequate opportunity for public review and comment.

Section 450.316(a) establishes the outline for MPO public participation programs. The Montachusett MPO's Public Participation Program (PPP), as previously mentioned, was formally revised, updated and subsequently adopted by the MPO on May 25, 2016. The development and adoption of this program conforms to the requirements of this section. It guarantees public access to the TIP and all supporting documentation, provides for public notification of the availability of the TIP and the public's right to review the document and comment thereon, and provides a 30-day public review and comment period prior to the adoption of the TIP by the MPO. The PPP allows for an abbreviated public comment period for the Transportation Improvement Program (TIP), Unified Planning Work Program (UPWP) or Regional Transportation Plan (RTP) for a period of not less than ten (10) days under what the MPO considers to be extraordinary circumstances. The revised PPP has also been reviewed by the MassDOT Office of Diversity and Civil Rights (ODCR) and any recommendations were incorporated. Future updates and/or revisions will be undertaken as requirements and/or changes are identified due to the passage of the FAST Act, and any future continuing resolutions or federal authorizing legislation.

During the TIP development process, a memo announcing the commencement of the TIP was distributed to members of the MPO outreach list including those identified as serving the Title VI and EJ populations. The memo was also translated into Spanish based on our current LEP (Limited English Proficiency) Plan. These memos identified upcoming times and dates where the TIP was to be discussed. It also invited comments and input from all potentially impacted populations including those of Title VI and EJ. These memos were also published to the MRPC webpage. During the development process, staff attended the MassDOT Capital Investment Plan (CIP) public meeting where they discussed the importance of public involvement in the local TIP process. Subsequently, at the next MJTC meeting held on May 18<sup>th</sup>, a group of individuals representing various segments of the Title VI and EJ populations attended to provide feedback to the transportation planning process. In addition, staff offered to attend future meetings of any group or organization to advance the outreach process. For a listing of the groups contacted as well as a list of meeting dates, please refer to the Coordination/Consultation Process section later in this document.

The Montachusett Regional Transit Authority, a FTA Section 5307/5310/5337/5339 applicant, has consulted with the Montachusett Regional Planning Commission and concurs that the public involvement process adopted by the MPO

for the development of the TIP satisfies the public hearing requirements that pertain to the development of the “Program of Projects” (POP) for regular Section 5307, Urbanized Area Formula Program, grant applications including the provision for public notice and the time established for public review and comment.

For FTA projects that are not routine, i.e. applications that require an environmental assessment or an environmental impact statement, the public involvement provided for herein for TIP review is not sufficient. Additional public involvement, as presented in the joint FHWA/FTA environmental regulations, 23 CFR part 771 will be required by FTA for grant approval.

**Project Selection/Prioritization – Transportation Evaluation Criteria**

For the purposes of project selection and programming, any project listed in Year 1 of the endorsed TIP will be considered to have the concurrence of the MPO without further action required. Prioritization of projects will have taken place by virtue of placement of a project in Years 1 to 5 of the TIP. Out years may contain unallocated funding amounts based upon anticipated federal aid regional target funds. These yearly listing will be further defined as specific projects in subsequent year TIPs.

Prioritization of projects is based upon input from MassDOT regarding project design and implementation status, local prioritization from chief elected officials, scoring of the project based upon the Transportation Evaluation Criteria (TEC), fiscal constraints for the Montachusett Region, consensus vote by the MJTC and formal adoption by the MPO. Throughout this procedure, input from local citizens are reviewed and considered where appropriate in the prioritization process.

An initial project listing is obtained from MassDOT and the local communities. These projects are then reviewed one by one to ascertain their current status as to design and potential advertising dates. Projects are then scored and evaluated utilizing the Transportation Evaluation Criteria (TEC). In early 2013, the Montachusett MPO revised and updated the original TEC developed by MassDOT. This revised TEC is a series of criteria to “be applied by the appropriate implementing agency during the project development stage to ensure that our limited budgetary and staff resources are committed to the best proposals; to assist the MPO process of programming federal funding through the regional Transportation Improvement Programs; and to examine existing projects in the pipeline to determine which should ultimately proceed to design and construction.”

The criteria are used to cover all types of transportation projects from simple resurfacing to reconstruction and expansion. Benefits and impacts are examined for transportation as well as economic development, community effects, environmental justice issues, land use and environmental impacts. Final scores based upon the TEC then become part of the decision and prioritization process.

The Montachusett TEC is based on a scoring scale of 0 to 100 with the higher the score the greater the project priority. To establish the 100 point scale, 25 separate questions were derived and grouped into six (6) categories. The categories and individual questions/criteria per category breakdown as follows:

Category	No. of Individual Questions/Criteria	Total Maximum Category Score
Condition	4	12
Mobility	4	16
Safety	4	20
Community Effects and Support	5	20
Land Use and Economic Development	4	16
Environmental Effects	4	16
<b>Totals</b>	<b>25</b>	<b>100</b>

The Maximum Category scores reflect the relative importance of that category as determined by the MPO during the establishment of the revised Montachusett TEC, i.e. Safety and Community Effects and Support were deemed to be of greater significance in the prioritization process. For a sample TEC scoring sheet, please refer to the appendix of this document.

At the start of each TIP development cycle, MPO staff reviews the latest information and status of the regions projects in order to update their individual TEC scores. As projects move forward, more details related to their scope, purpose and impacts can usually be derived. This in turn results in a better ability to score the project based on the TEC questions.

After all projects are scored, a prioritized listing is established by the MPO. This listing helps to drive the development of each of the individual federal fiscal years of the TIP. Two additional elements of the project also play into the prioritization process; the projects estimated total cost and its current design status. The current design status of a project significantly affects its potential for advertisement in a particular fiscal year. Delays in permitting, right-of-way, environmental impacts, etc. can prevent a highly scored project from being included in particular year. Thus close coordination with MassDOT on project development is an important aspect of developing a workable TIP. In addition, the TIP is required to be fiscally constrained, i.e. a region cannot program more projects than the anticipated federal funds available for its region. MassDOT provides each region with these federal "target" figures to assist in the development of a fiscally constrained document. These fiscal limits can impact how many projects can be allocated in a certain year, thus consensus on cost estimates are also key in the TIP process.

From this, a project listing by fiscal year is developed. The listing is then reviewed by state and local officials, as well as the MJTC and the MPO, to determine fiscal constraint by funding year. Any problems are then identified. Through the MPO, projects are adjusted and prioritized in order to resolve the identified problems.

## EQUITY DISTRIBUTION ANALYSIS OF TIP PROJECTS

MassDOT and FHWA have requested MPO's to include a geographic and social equity analysis of past and current TIP projects. Listed below are projects from the past five Montachusett MPO TIPs as well as projects included in this FFY 2017–2021 TIP. The projects identified for this analysis include site specific projects, i.e. bridge replacements/rehabilitations and intersection improvements, as well as road and highway segments that may stretch several miles and across multiple communities. The identified projects were then mapped versus identified Environmental Justice and/or Title VI populations. Maps can be found in the appendix of this document. Environmental Justice and Title VI populations are defined as indicated in the tables below.

Environmental Justice Block Groups
1. Block group whose annual median household income is equal to or less than 65 percent (%) of the statewide median (\$62,072 in 2010); or
2. Twenty-five percent (25%) or more of the residents identifying as minority; or
3. Twenty-five percent (25%) or more of the households having no one over the age of 14 who speaks English only or very well - Limited English Proficiency (LEP).

FTA Title VI Communities
1. <u>Minority</u> (% of population including Hispanic or Latino of any race that is considered non-white and is higher than the regional average of 20.51%) - Shirley, Leominster, Lancaster, Fitchburg, Clinton and Ayer
2. <u>Low Income</u> (% Estimated Below Poverty Level that is higher than the regional average of 10.49%) - Athol, Ayer, Fitchburg, Gardner, Shirley and Templeton

FHWA Title VI Communities
1. <u>Elderly</u> (% of Total Population > 65 that is higher than the regional average of 12.58%) – Athol, Clinton, Gardner, Leominster, Lunenburg, Petersham, Sterling, and Templeton
2. <u>Individuals with Disabilities</u> (% of population with a disability that is higher than the regional average of 12.12%) – Athol, Ayer, Fitchburg, Gardner, Leominster, Petersham, and Royalston
3. <u>Minority</u> (% of population including Hispanic or Latino of any race that is considered non-white and is higher than the regional average of 20.51%) - Shirley, Leominster, Lancaster, Fitchburg, Clinton and Ayer
4. <u>Foreign Born</u> (% of population that is Foreign Born and is higher than the regional average of 8.15%) – Ayer, Clinton, Fitchburg, Gardner, Harvard, Leominster and Shirley
5. <u>Language</u> (% of Population Spoken Language Other than English that is higher than the regional average of 13.70%) – Clinton, Fitchburg, Harvard, Leominster, and Shirley

### Five Year Project Review (cont.)

TOTALS	Cost	Within EJ Population	Within Title VI Population	
			FHWA	FTA
	\$150,245,176	\$55,761,747 37.11%	\$111,960,829 74.52%	\$91,667,326 61.01%

### Equity Analysis

A review of census data (both 2010 and ACS) for the Montachusett MPO indicates the following related to EJ and Title VI populations based on the definitions listed above. Also note that the EJ figures are based on Block Group data while Title VI figures are based on an entire community.

### Analysis of EJ and Title VI Populations

	Region Totals	Percent of Total
<b>Montachusett Population</b>	236,475	
<b>EJ Population</b>		
Total	72,624	30.71%
Minority	54,260	22.95%
Low Income	38,602	16.32%
Language	876	0.37%
<b>Title VI Populations (FHWA)</b>		
Elderly	19,296	8.16%
Disabilities	17,650	7.46%
Minority	20,395	8.62%
Foreign Born	15,432	6.53%
Language	22,001	9.30%
<b>Title VI Populations (FTA)</b>		
Minority	20,395	8.62%
Low Income	7,967	3.37%

An examination of projects over the last five TIPs (including the projects within this TIP), identified 48 individual projects with an estimated total cost of \$150,245,176. A geographic distribution of these 48 projects against those areas categorized as Environmental Justice (EJ) or Title VI areas resulted in the following:

- Fifteen (15) of the 48 projects (31.25%) fell within identified EJ areas representing a total cost of \$55,761,747, or 37.11% of the total project costs of \$150,245,176. These projects would impact a total EJ population of 25,754 individuals or 35.46% of the total EJ population count of 72,624.
- Thirty-six (36) of the 48 projects (75.0%) were located in Title VI areas with a total cost of \$111,960,829, or 74.52% of the total project costs of \$150,245,176. Because Title VI population figures are not allocated down to the block group level, impacts to these populations are based on community wide numbers. Therefore, these 36 projects would impact 75% of the Title VI population numbers identified in the above table, i.e. from a low of 2.53% to a high of 6.98%.

## FEDERAL LEGISLATION

---

On December 4, 2015, President Obama signed into law the new Federal Surface Transportation Authorization known as Fixing America's Surface Transportation (FAST) Act. The FAST Act "largely maintains current structures and funding shares between highways and transit" and "makes changes and reforms to many Federal transportation programs, including streamlining the approval processes for new transportation projects, providing new safety tools, and establishing new programs to advance critical freight projects" (source: U. S. DOT website). The FAST Act retains most of the planning requirements of prior federal regulations, i.e. Moving Ahead for Progress in the 21<sup>st</sup> Century (MAP-21) and the Safe Accountable Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). Rulemaking for the FAST Act is still underway at this time.

The FAST Act added two additional factors to the eight planning factors for both metro and statewide planning identified in MAP-21:

- Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity and efficiency;
- Increase the safety of the transportation system for all motorized and non-motorized users;
- Increase the ability of the transportation system to support homeland security and to safeguard the personal security of motorized and non-motorized users;
- Increase accessibility and mobility of people and freight;
- Protect and enhance the environment, promote energy conservation, improve the quality of life and promote consistency between transportation improvements and State and local planned growth and economic development patterns;
- Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
- Promote efficient system management and operation;
- Emphasize the preservation of the existing transportation system;
- Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and
- Enhance travel and tourism.

A key feature of the prior federal authorization legislation MAP-21 that is maintained in the FAST Act "is the establishment of a performance- and outcome-based program. The objective ...is for States to invest resources in projects that collectively will make progress toward the achievement of the national goals." National performance goals have been established in seven areas:

- Safety - To achieve a significant reduction in traffic fatalities and serious injuries on all public roads.
- Infrastructure condition - To maintain the highway infrastructure asset system in a state of good repair.
- Congestion reduction - To achieve a significant reduction in congestion on the National Highway System.
- System reliability - To improve the efficiency of the surface transportation system.
- Freight movement and economic vitality - To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development.
- Environmental sustainability - To enhance the performance of the transportation system while protecting and enhancing the natural environment.
- Reduced project delivery delays - To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices.

Performance measures and targets are required to be established by FHWA, state DOTs, MPOs and other stakeholders in consultation with each other over the upcoming years. The Montachusett MPO is committed to working with MassDOT, FHWA and other partners to develop and track the performance of elements of the regional transportation system and to utilize these performance measures as a tool or guide in the transportation planning process. MRPC staff has continued to review available data, information, state and federal goals and requirements in order to develop regional local performance measures. A series of performance measures were identified during the development of the 2016 Regional Transportation Plan (RTP). These performance measures form the basis for system monitoring in the Montachusett Region until such time as federal and state measures are compiled and established. These regional performance measures will begin to be incorporated into the decision making process for the TIP over the next few development cycles. As these measures are further defined, refined and adopted on the federal and state level, it is expected that the TEC will also be revised and/or updated to reflect them.

## **COORDINATION/CONSULTATION PROCESS**

---

During the development process of the TIP, the MRPC coordinates with:

- MassDOT Highway Division Districts 2 and 3;
- MassDOT Office of Transportation Planning;
- Montachusett Regional Transit Authority;
- Montachusett Metropolitan Planning Organization;
- Montachusett Joint Transportation Committee.

In addition to specific meetings scheduled for TIP project and Transportation Evaluation Criteria (TEC) review, public meetings of the MJTC and MRPC provide opportunity for input from the general public and interested groups. Notices related to the TIP development and the public comment periods are disseminated to members of the MRPC Transportation Mailing Matrix in accordance with the prior Montachusett Public Participation Plan (MPO endorsed June 13, 2007 and Amended April 5, 2010) which was in effect at the time of this TIP development cycle.

As part of this outreach process, efforts to ensure meeting the requirements of Environmental Justice and Title VI of the 1964 Civil Rights Act are continually examined. This includes the development of a Limited English Proficiency (LEP) Access Plan (MPO Adopted September 2013), translation of memos and certain documents into other languages (based upon the LEP, this is currently done for Spanish), the availability of translation tools for the MRPC website and the inclusion of advocates for special groups in the MJTC membership. In early 2015, a review and update of electronic contact information, i.e. email addresses, was conducted in order to correct several issues including broken or non-existent addresses. This revised electronic mailing list now comprises the major PPP distribution list for transportation issues and notices. The update of this electronic mailing list is a continuing process as the names of organizations and individual participants change or are added and/or deleted.

Members of the matrix include but are not limited to:

**Public/Private Groups** - Montachusett Joint Transportation Committee (MJTC) Members; Montachusett Regional Planning Commission (MRPC) Members; Montachusett Metropolitan Planning Organization (MMPO) Members; Mayors; Boards of Selectmen; Planning Departments; Planning Boards; City and Town Clerks; Town Administrators; Police Departments; Fire Departments; Public Work Departments; Conservation Commissions; Congressmen; Senators; State Senators and Representatives ; Local Media; Libraries; Councils on Aging; Private Transportation Providers; Regional Transit Authority; Chambers of Commerce; City Councilors; Environmental Protection Agency; Department of Environmental Management; State and Federal Agencies; Housing Authorities; School Districts; Hospitals and Medical Centers; Trail Advocacy Groups and Organizations; Community Development Corporations; and Emergency Management Agencies and Directors.

**Special Interest Groups** - Montachusett Opportunity Council; Local Transit Union; Cleghorn Neighborhood Center; Spanish American Center; MA Rehab Commission; Fitchburg Spanish Council; Local Community Development Corporations; Airport Managers; Neighborhood Groups; Community Action Groups

The FFY 2017 – 2021 TIP has been or will be discussed at the following scheduled meetings:

- February 17, 2016 – Montachusett MPO Meeting
- February 17, 2016 – MJTC Meeting
- February 23, 2016 – MRPC Meeting
- March 9, 2016 – Montachusett MPO Meeting
- March 10, 2016 – MARPA/MassDOT Annual Consultation Meeting
- March 16, 2016 – MJTC Meeting
- March 29, 2016 – MRPC Meeting
- April 14, 2016 – MassDOT TIP Day Meeting
- April 20, 2016 – Montachusett MPO Meeting
- April 20, 2016 – MJTC Meeting
- April 26, 2016 – MRPC Meeting
- May 18, 2016 – MJTC Meeting
- May 25, 2016 – Montachusett MPO Meeting
- May 31, 2016 – MRPC Meeting
- June 15, 2016 - MJTC Meeting
- June 16, 2016 – MRPC Meeting
- June 29, 2016 – Montachusett MPO Meeting
- July 20, 2016 – MJTC Meeting
- July 26, 2016 – MRPC Meeting
- August 3, 2016 – Montachusett MPO Meeting
- August 17, 2016 – MJTC Meeting
- August 30, 2016 – MRPC Meeting

Through this extensive mailing and notification process, it is anticipated that local and state agencies and officials, as well as other groups/organizations, will be notified of the TIP development process and further coordination and/or consultation will occur as decisions and documents are prepared. As stated in 23 CFR 450.316 (3) (b) the MPO continues to seek to consult with “agencies and officials responsible for other planning activities within the Metropolitan Planning Area (MPA) that are affected by transportation or coordinate its planning process (to the maximum extent practicable) with such planning activities”.

In addition to regular notification of organizations and agencies through meeting mailings, a separate memo was distributed on February 2, 2016 to all members of the Transportation Mailing Matrix that specifically invited their input to the TIP development process. This mailing identified specific meetings of the MJTC, MRPC and Montachusett MPO at which the development of the TIP would be a major item of discussion and which any input would be appropriate, appreciated and important to the overall TIP process. The specific meetings identified included the:

- February 17, 2016 – Montachusett MPO Meeting
- February 17, 2016 – MJTC Meeting
- February 23, 2016 – MRPC Meeting
- March 9, 2016 – Montachusett MPO Meeting
- March 16, 2016 – MJTC Meeting
- March 29, 2016 – MRPC Meeting
- April 20, 2016 – Montachusett MPO Meeting

- April 20, 2016 – MJTC Meeting
- April 26, 2016 – MRPC Meeting
- May 18, 2016 – MJTC Meeting
- May 25, 2016 – Montachusett MPO Meeting
- May 31, 2016 – MRPC Meeting
- June 15, 2016 – MJTC Meeting
- June 16, 2016 – MRPC Meeting
- June 29, 2016 – Montachusett MPO Meeting
- July 13, 2016 – Montachusett MPO Meeting
- July 20, 2016 – MJTC Meeting
- July 26, 2016 – MRPC Meeting
- August 10, 2016 – Montachusett MPO Meeting
- August 17, 2016 – MJTC Meeting
- August 30, 2016 – MRPC Meeting

The memo and mailing was targeted towards those agencies, organizations, local boards and citizens with an interest or responsibility for planning that might be affected by transportation. Contact information as to how interested individuals, agencies and/or organizations could provide input via email, regular mail, fax and phone was also provided in the memo.

In addition, notices and information encouraging input to the TIP development process have been placed on the MRPC website. This includes the memo announcing the development of the TIP with any and all appropriate meeting dates, memos announcing the start of the comment period and the availability of draft documents as well as the draft document itself. These posting were also made to the website in a Spanish language version. Upon endorsement of the TIP by the MPO, final versions of the TIP as well as a project summary are then made available via the MRPC website. All comments received during the public comment and review period, as well as appropriate responses to them, are detailed in the Appendix Comments and Responses at the end of this document.

## **AMENDMENT/ADJUSTMENT PROCEDURES**

---

In order to minimize constraints on programming projects, the endorsed TIP will have the provision, as adopted by the MPO, that will allow relatively minor modifications be made to the TIP without formal MPO action. Significant changes will continue to require MPO action through the amendment process.

Minor modifications may include such actions as:

- moving a project in either direction between the sequential years, ex. Years 1 and 2, Years 2 and 3, etc.;
- changes in funding amounts (typically less than 10% of the total cost) or categories within the same fiscal year.

Minor modifications will be accomplished through an agreed-upon administrative action with the approval of the MPO. That action will include approval of the modification by the MPO at a duly constituted meeting and written notification of the MPO members. Under an adjustment a formal signatory endorsement and a 30 day public review period will not be required.

Significant changes to the TIP include major actions such as:

- the addition or deletion of a Federal Aid project;
- if the design, scope or budget of a project is found to have changed significantly as determined by the

- MJTC and MPO (typically cost changes of more than 10%);
- moving a project from Non-Federal Aid to one of the Federal Aid funding categories;
- moving a project in either direction between non-sequential fiscal years, ex. from Year 1 of the TIP to Year 3;
- advancing a project from the Appendix project list to either Years 1, 2, 3 or 4.
- advancing a project from the out Year 5 to either Years 1, 2 or 3.

Significant changes to the TIP will require formal endorsement of an amendment. This amendment process will include a 30 day public comment period, or an abbreviated comment period of not less than ten (10) days under what the MPO considers to be extraordinary circumstances, as outlined in the federal planning regulations and the Montachusett Public Participation Program (as endorsed May 25, 2016), approval of the amendment and signatory endorsement by MPO members at a subsequent MPO meeting.

The MPO will review each request change and determine whether the adjustment or amendment procedure is required for the proposed action.

## TRANSPORTATION FUNDING PROGRAMS

---

### Description of Highway Programs

Federal Aid is received by the State as reimbursement, and the State is required to contribute a matching share to most projects receiving Federal funds.

The FAST Act has generally maintained the program structure of MAP-21 that had combined several activities previously carried out under existing formula programs into a new core formula program structure. The FAST Act includes the following:

- National Highway Performance Program (NHPP)
- Surface Transportation Block Grant Program (STBGP)
- Highway Safety Improvement Program (HSIP)
- Railway-Highway Grade Crossings Program
- Congestion Mitigation and Air Quality Improvement Program (CMAQ)
- National Highway Freight Program (NHFP)
- STBGP Set-Aside (formerly the Transportation Alternatives Program (TAP))

This TIP includes projects funded under these programs as well as potentially carried over programs from prior federal authorizations such as High Priority Program (HPP) funds.

### Glossary of Terms

The terms used in the main part of this TIP are defined as follows:

- MassDOT Project ID: indicates Massachusetts Department of Transportation Highway Division Project Identification Number.
- MassDOT Project Description: indicates the city or town in which the project is to be implemented and gives details of the type of work to be performed and specific locations.
- MassDOT District: indicates in which MassDOT Highway Division District of the Montachusett Region the project occurs. The communities in the MRPC Region fall within District 2, with offices in Northampton, and District 3, with offices in Worcester.

- Funding Source: indicates funding program under which the project is eligible for dollar allocations, such as National Highway Performance Program or Surface Transportation Block Grant Program.
- Total Programmed Funds, Federal Funds, Non-Federal Funds: presented for each project for each fiscal year are estimated total costs and the source/share of the funds, i.e. Federal or State. Projects where costs and activity are not available will be labeled NA. Note that FFY 16 estimated operation costs for transit projects is included in the Year 1 Element due to Federal requirements. Also the source of the funds needed to implement the project is indicated as Federal and/or State.
- Additional Information: indicates any additional information pertinent to the project in order to provide the reader with a more detail look at the project. In addition, the current cost of the project (in Year 1 dollars) and the Year of Expenditure (YOE) cost as well as the inflation factor for that year (i.e. Year 2 – YOE increase of 4%; Year 3 – YOE increase of 8%; Year 4 – YOE increase of 12%; and Year 5 – YOE increase of 16%) are listed.

All of the programs listed are administered by the MassDOT. A project may be initiated by MassDOT or the local community. If approved, the project is submitted to Federal Highway Administration for funding. A description of each of these programs follows:

- National Highway Performance Program (NHPP): The enhanced National Highway Performance Program (NHPP) is composed of rural and urban roads serving major population centers, international border crossings, intermodal transportation facilities, and major travel destinations. It includes the Interstate System, all principal arterials (including some not previously designated as part of the NHS) and border crossings on those routes, highways that provide motor vehicle access between the NHS and major intermodal transportation facilities, and the network of highways important to U.S. strategic defense (STRAHNET) and its connectors to major military installations. The funding split for this program is generally 80% federal 20% state.
- Surface Transportation Block Grant Program (STBGP): The FAST Act converts the long-standing Surface Transportation Program into the Surface Transportation Block Grant Program acknowledging that this program has the most flexible eligibilities among all Federal-aid highway programs and aligning the program's name with how FHWA has historically administered it. The STBG promotes flexibility in State and local transportation decisions and provides flexible funding to best address State and local transportation needs. As under MAP-21, the FAST Act directs FHWA to apportion funding as a lump sum for each State then divide that total among apportioned programs. Each State's STBG apportionment is calculated based on a percentage specified in law. (See "Apportionment" fact sheet for a description of this calculation). The funding split for this program is generally 80% federal 20% state.
- Congestion Mitigation and Air Quality (CMAQ): The CMAQ program is continued in the FAST Act to provide a flexible funding source to State and local governments for transportation projects and programs to help meet the requirements of the Clean Air Act. Funding is available to reduce congestion and improve air quality for areas that do not meet the National Ambient Air Quality Standards for ozone, carbon monoxide, or particulate matter (nonattainment areas) and for former nonattainment areas that are now in compliance (maintenance areas). The funding split for this program is generally 80% federal 20% state.
- Highway Safety Improvement Program (HSIP): The FAST Act continues the Highway Safety Improvement Program (HSIP) to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands. The HSIP requires a data-driven, strategic approach to improving highway safety on all public roads that focuses on performance. The funding split is 90% federal and 10% state.
- STBGP Set-Aside: The FAST Act eliminates the MAP-21 Transportation Alternatives Program (TAP) and replaces it with a set-aside of Surface Transportation Block Grant (STBG) program funding for transportation alternatives (TA). These set-aside funds include all projects and activities that were previously eligible under TAP, encompassing a variety of smaller-scale transportation projects such as pedestrian and bicycle facilities, recreational trails, safe routes to school projects, community improvements such as historic preservation and vegetation management, and environmental mitigation related to stormwater and habitat connectivity. The funding split for this program is generally 80% federal 20% state.

- High Priority Projects: This program provides designated funding for specific projects identified in SAFETEA-LU. Projects are identified with a specified amount of funding over the 5 years of SAFETEA-LU. The funds designated for a project are available only for that project until expended. HPP projects are fully funded and are included on the TIP when they are expected to be “ready to go.” The funding split is 80% federal and 20% state.

FAST Act funding information from FHWA Fact Sheets found at the FAST Act website (<http://www.fhwa.dot.gov/fastact/factsheets/index.cfm>).

## **Description of Transit Funding Programs**

The Federal Surface Transportation Authorization known as the Fixing America’s Surface Transportation (FAST) Act was signed into law in December 2015. The act, which supports transit funding through fiscal year 2020, reauthorizes FTA programs and includes changes to improve mobility, streamline capital project construction and acquisition, and increase the safety of public transportation systems across the country. It replaces the former authorization called “MAP-21”. Discretionary and Formula funds are available. Formula grant programs are funded to States based on formulas of population. Each grant program is referred to by name and most also by a number that correlates to the section number of Chapter 53 of Title 49 of the United States Code, as Amended by MAP-21. Specific allocation of funding amounts into each category is laid out in Section 5338.

### Formula Grants

- Urbanized Area Formula Program (5307) Funds: This formula program makes funds available on the basis of a statutory formula to all urbanized areas in the country. Eligible activities are capital projects, planning and job access/reverse commute projects. Operating assistance is continued as an eligible expense under Section 5307. Operating assistance caps are now in place for urbanized areas over 200,000 but operating fewer than 100 buses (no rail), not just those under 200,000 (as determined by the U.S. Census Bureau), as is the case in previous law.
- Transportation for Elderly Persons and Persons with Disabilities (5310) Funds: This program provides capital funding for transportation services for elderly and disabled persons. Authorization under MAP-21 has moved the formula allocation from a single statewide allocation to an Urbanized Area allocation. The funds may go to private, non-profit organizations or to public bodies which coordinate service. Also funds available to our area are in a single allocation with two other “Small Urban” areas, therefore MassDOT has made all the apportioned funds a competitive application. No less than 55% of these funds must be used for capital projects. Up to 45% may be used for operating assistance projects that would formerly been eligible under New Freedom funds. No more than 10% may be used be a recipient for Administrative Expenses associated with a project. The Rail and Transit Division of the Massachusetts Department of Transportation through the State Transportation Bond authorization program, makes capital grants available through its Mobility Assistance Program to public agencies to purchase vehicles and related equipment for transporting elderly and disabled persons.
- Formula Grants for Other than Urbanized Areas (5311) Funds: program provides capital, planning, and operating assistance to states to support public transportation in rural areas with populations of less than 50,000, where many residents often rely on public transit to reach their destinations. The program also provides funding for state and national training and technical assistance through the Rural Transportation Assistance Program. States must spend at least 15% of its annual apportionment for the development and support of intercity bus transportation, unless it can certify, after consultation with intercity bus service providers, that the intercity bus needs of the state are being adequately met.
- Bus and Bus Facilities (5339) Funds: This program provides capital assistance for new and replacement buses, related equipment, and facilities. These funds have both a formula based program by urbanized area and a competitive discretionary program. As with the 5310 formula, 5339 is apportioned to our region via the state thru an allocation for “Small Urban,” with a statewide allocation as well. Therefore a competitive process thru MassDOT has been established for the 3 small urban and 3 rural RTA’s to obtain these funds. The Federal

share of eligible capital costs is no more than 80 percent of the net capital project cost. MART can also apply as a direct recipient when discretionary funds are released via a Notice of Funding Availability (NOFA) by USDOT/FTA.

- State of Good Repair Formula Grants (5337): Eligible recipients are state and local government authorities in urbanized areas with fixed guideway public transportation facilities operating for at least 7 years. The Montachusett Regional Transit Authority is not an eligible recipient since there is not currently any fixed guideway or high-speed motorbus operated under the authority.

### Discretionary Grants

The Federal Transit Administration and the U.S. Department of Transportation still have a few discretionary grant programs that MART is eligible to apply under. A Notice of Funding Availability (NOFA) is published in the Federal Register each year stating program amounts and instructions for applying for these Competitive grants. Please see FTA's website for more details at <http://www.fta.dot.gov/grants/15926.html>.

- Capital Investment Grants (5309): This is FTA's primary grant program for funding major transit capital investments, including heavy rail, commuter rail, light rail, streetcars, and bus rapid transit. It is a discretionary grant program unlike most others in government. Instead of an annual call for applications and selection of awardees by the Federal Transit Administration (FTA), the law requires that projects seeking CIG funding complete a series of steps over several years to be eligible for funding. For New Starts and Core Capacity projects, the law requires completion of two phases in advance of receipt of a construction grant agreement – Project Development and Engineering. For Small Starts projects, the law requires completion of one phase in advance of receipt of a construction grant agreement – Project Development. The law also requires projects to be rated by FTA at various points in the process according to statutory criteria evaluating project justification and local financial commitment.
- TIGER (USDOT): The Transportation Investment Generating Economic Recovery, or TIGER Discretionary Grant program, provides a unique opportunity for the U.S. Department of Transportation to invest in road, rail, transit and port projects that promise to achieve critical national objectives. The TIGER program enables DOT to use a rigorous process to select projects with exceptional benefits, explore ways to deliver projects faster and save on construction costs, and make investments in our Nation's infrastructure that make communities more livable and sustainable.
- Low or No Emission Vehicle Deployment Program (5339 c): The main purpose of the LoNo Program is to deploy the cleanest and most energy efficient U.S.-made transit buses that have been largely proven in testing and demonstrations but are not yet widely deployed in transit fleets. The LoNo Program provides funding for transit agencies for capital acquisitions and leases of zero emission and low-emission transit buses, including acquisition, construction, and leasing of required supporting facilities such as recharging, refueling, and maintenance facilities.
- Public Transportation Innovative and other Research & Technology Programs – 5312: Under the FASTAct there are currently 3 programs eligible under 5312 research/demonstration funds. All of them have the same goal of providing funding to develop innovative products and services assisting transit agencies in better meeting the needs of their customers.
- Pilot Program for Transit-Oriented Development Planning - 5309: helps support FTA's mission of improving public transportation for America's communities by providing funding to local communities to integrate land use and transportation planning with a transit capital investment that is seeking or recently received funding through the [Capital Investment Grant \(CIG\) Program](#). Comprehensive planning funded through the program must examine ways to improve economic development and ridership, foster multimodal connectivity and accessibility, improve transit access for pedestrian and bicycle traffic, engage the private sector, identify infrastructure needs, and enable mixed-use development near transit stations.

## **COORDINATION WITH REGIONAL TRANSPORTATION PLANNING**

---

The 2016 Montachusett Regional Transportation Plan (RTP) was completed and endorsed by the MPO on July 30, 2015. It provides the basic framework for implementing future short-range and long-range transportation and air quality improvements in the Montachusett Region. In addition, it sets the basic transportation goals and objectives for the region. These goals and objectives are consistent with the long-range land use plan and the social, economic, and environmental policies of the region.

The 2016 Regional Transportation Plan (RTP) serves as a long term blueprint of the region's transportation system. The current network is compared to the past and envisioned 25 years into the future. Needs are identified and a framework of projects and priorities are set across all modes, i.e. highway, transit, bicycle and pedestrian, freight, etc. The RTP also serves to provide as a basis for any federally financed transportation and transit project, program or study.

The Transportation Plan decisions reflect the federally certified 3C (comprehensive, cooperative and continuing) process, and are based upon Federal, State and local policies, detailed technical analysis, and citizen participation.

Projects in the Fiscal Year 2017-2021 TIP are consistent with the previous as well as the current Regional Transportation Plan for the Montachusett Region as completed in 2003, 2007, 2012 and 2016. The transit portion of the region's transportation system and its needs is broken down into several components. These include operations of the Regional Transit Authority, commuter rail services and capital funding needs.

Recommendations in the Regional Transportation Plan concerning the Transit Authority component of the region's transportation system are drawn directly from transit development studies and other work tasks. Recommendations made to improve the MART transit system include:

- Continued monitoring of routes and schedules so that any beneficial changes can be identified and implemented;
- Alternative sources of funding for continued transit operations must be developed and instituted;
- The marketing effort must be upgraded and increased to inform the public of transit availability and efficiency;
- Additional equipment such as radios, lift equipped buses, lift equipped vans, etc., should be acquired;
- Driver safety, CPR, first aid, and sensitivity courses should be maintained;
- Transit services for the elderly and the individuals with disabilities should continue to be upgraded as necessary to insure both availability and accessibility in compliance with MART's ADA complementary paratransit plan;
- Paratransit services provided by MART to social service agency clients should continue to be monitored for coordination of effort;

The short range recommendations for commuter rail service in the region insure maintenance of current operations by provision of adequate funding from federal and state sources. The completion of commuter parking garages at the Fitchburg Intermodal Transportation Center and in North Leominster has helped meet short term goals. The successful start of the Ayer Commuter Parking project will further increase meeting these goals.

Long range recommendations for commuter rail service include but are not restricted to preservation of essential rail freight services, encouragement of businesses to continue to increase rail use, preservation of abandoned rail rights-of-way with potential future public use. MART in coordination with MBTA and Pan Am are working on two programs; the first is a small starts project to upgrade both tracks and stations between Fitchburg and Cambridge on the rail line. This will enhance the commuter experience and allow for a faster commute into Boston. The second project is to create a new station (Wachusett) with a park-and-ride lot a few miles west of the Downtown Fitchburg station in West Fitchburg, just off Route 2, and a layover facility in Westminster. These projects are well underway; the tracking project has begun its final construction season and Wachusett Station is expected to open in October 2016.

Recommendations for funding of the Mobility Assistance Program including the Section 5310 program are also noted in the Regional Transportation Plan. It states that in order to provide increased mobility for Montachusett residents that do not own automobiles or that choose to be less dependent on the automobile; MART will need to continue to develop and implement appropriate and innovative public transit programs. It also states that elderly and disabled services provided by MART and social service agencies should continue to be monitored for coordination of effort. The vehicles that MART is requesting under MAP would be used as replacements to the vehicles operated in the Dial-A-MART, COA, and ADA complementary Paratransit programs. The Dial-A-MART program coordinates transportation services for social service agencies, disability community advocacy organizations, etc. located in the Montachusett Region.

Capital funding needs can be broken down into two categories: capital equipment purchases and construction /rehabilitation projects. The Regional Transportation Plan states that in addition to increased and improved routing and scheduling, it will be necessary for MART to maintain and improve the operating condition of its vehicle fleet. The present vehicle fleet will be gradually replaced with new equipment as the need arises. The only major construction activity during the next year will be the Ayer Commuter Rail Parking project.

MART procured management of operational services for our fixed route and Para-transit services in early 2013, with a new contract in effect as of July 1, 2013. Three Requests for Proposal were released: one for fixed route/ADA in Fitchburg/Leominster, one for fixed route/ADA in Gardner, and one for Dial-A-MART Services. Operators had the option to quote on all three as a package deal under one Management Company. MART completely revamped our efforts to procure these services so that a broader range of Private Enterprise Providers could be reached. MART even advertised in Mass Transit magazine to reach a national audience. MART considered the following major factors when contracting for provider(s) for MART's fixed route/ADA and Dial-A-MART services.

- 1) Technical Proposal showing the following areas of technical merit:
  - (a) Qualifications & experience,
  - (b) Operational & maintenance,
  - (c) Customer service & innovation,
  - (d) Organization & structure, and
  - (e) Safety & training.
  
- 2) Cost Proposal: Pricing offers will only be evaluated for those Proponents whose technical offers have been determined to be technically acceptable. Each proponent's cost will be evaluated for reasonableness, realism, and completeness, which are of equal importance. The award will be based on best value.

A list of private operators, developed as a part of the PPP document, now regularly receive minutes and notices of monthly Montachusett Joint Transportation Committee (MJTC) meetings. Also, they are notified of the draft TIP, UPWP, and when applicable, the Regional Transportation Plan, in order to solicit their ideas on studies and projects addressing private sector requirements.

## **STATE POLICIES AND DIRECTIVES**

---

### **GreenDOT**

GreenDOT is the Massachusetts Department of Transportation's sustainability initiative. It is designed to support the implementation of the following state laws.

- Climate Protection and Green Economy Act (Mass. Gen. L. c. 21N)
- Green Communities Act (Chapter 169 of the Acts of 2008)

- Healthy Transportation Compact (section 33 of Chapter 25 of the Acts of 2009)
- Leading by Example (Executive Order of Governor Patrick, no. 488)
- MassDOT’s youMove Massachusetts planning initiative
- The “Complete Streets” design standards of the 2006 MassDOT Highway Division Project Development and Design Guide, as amended

The GreenDOT initiative incorporates three main goals:

1. Reduce greenhouse gas (GHG) emissions
2. Promote the healthy transportation modes of walking, bicycling, and public transit
3. Support smart growth development

Through the GreenDOT policy, MassDOT will seek to “promote sustainable economic development, protect the natural environment, and enhance the quality of life for all the Commonwealth’s residents and visitors.”

### Mode Shift Goals

As part of implementation plan for GreenDOT, in October 2012 MassDOT announced a “Mode Shift” goal designed to reduce the number of individuals travelling by alone by automobile.

The Mode Shift goals are measured in Personal Miles Traveled (PMT) and are as follows:

<u>Year</u>	<u>Bicycling PMT</u>	<u>Transit PMT</u>	<u>Walking PMT</u>	<u>Total</u>
2010 (baseline)	150.4m	1.83b	101.1m	2.08b
2020 (benchmark)	330.0m	3.99b	223.9m	4.55b
2030 (goal year)	516.m	5.93b	333.6m	6.78b

Source: <http://transportation.blog.state.ma.us/blog/2012/12/massdot-goal-triple-bicycling-transit-walking.html>

### weMove Massachusetts

MassDOT released [weMove Massachusetts \(WMM\): Planning for Performance](#), the Commonwealth of Massachusetts’ 2040 Long-Range Transportation Plan (LRTP) in May of 2014. This plan includes seven major components:

1. Transportation Reform - emphasis on customers, innovation, accountability, performance management, efficiency, stewardship and stronger collaboration across transportation divisions;
2. Data and Analysis - critical to sound decision making;
3. Transportation System Needs Identification– to help choose the right transportation investments;
4. youMove Massachusetts Themes - ten value statements that capture the diverse values users;
5. Customer and Stakeholder Engagement– incorporate the priorities of customers and stakeholders;
6. Statewide Transportation Plans– implement modal plans;
7. Statewide Priorities and Policies– ensure accountability.

Source: <http://www.massdot.state.ma.us/wemove/Home.aspx>

The policies of the Commonwealth will be reviewed, considered and incorporated in the planning studies developed as part of the work tasks outlined in this UPWP. Recommendations derived from these studies will be consistent with state policies.

## Healthy Transportation Policy Directive

On September 20, 2013, MassDOT announced the Healthy Transportation Policy Directive designed to increase bicycling, transit and walking options. The directive is intended to promote multimodal access for users of the transportation networks and systems.

The Healthy Transportation Directive builds upon the goals established under MassDOT's GreenDOT Implementation Plan and mode shift goal. The Directive requires all MassDOT Districts to review all projects under design to "ensure they are consistent with ...goals."

Elements included in the Directive are as follows:

- All MassDOT facilities will consider adjacent land uses and be designed to include wider sidewalks, landscaping, crossing opportunities and other features to enhance healthy transportation options;
- Reviews will be conducted of cluster sites where incidents have occurred with healthy transportation users;
- MassDOT will develop a guide to assist communities proposing Shared Use Paths on or along rail beds in order to accelerate the path design process.

Additional information on the Healthy Transportation Policy Directive and MassDOT's GreenDOT comprehensive environmental responsibility and sustainability initiative can be viewed at <http://www.massdot.state.ma.us/GreenDOT.aspx>.

## 701 CMR 7.00 Use of Road Flaggers and Police Details on Public Works Projects

701 CMR 7.00 (the Regulation) was promulgated and became law on October 3, 2008. Under this Regulation, the CMR is applicable to any Public Works Project that is performed within the limits of, or that impact traffic on, any Public Road. The Municipal Limitation referenced in this Regulation is applicable only to projects where the Municipality is the Awarding Authority.

For all projects contained in the TIP, the Commonwealth is the Awarding Authority. Therefore, all projects must be considered and implemented in accordance with 701 CMR 7.00, and the Road Flagger and Police Detail Guidelines.

By placing a project on the TIP, the Municipality acknowledges that 701 CMR 7.00 is applicable to its project and design and construction will be fully compliant with this Regulation.

This information and additional information relative to guidance and implementation of the Regulation can be found by contacting the MassDOT Highway Division. ([www.massdot.state.ma.us/highway/Main.aspx](http://www.massdot.state.ma.us/highway/Main.aspx))

## RTA Comprehensive Service Analysis Plan

Section 63 of Chapter 46 of the Massachusetts Session Laws of 2013 states: Notwithstanding any general or special law to the contrary, each regional transit authority established under chapter 161B of the General Laws shall develop a comprehensive regional transit plan in consultation with the appropriate regional planning agency, the Massachusetts Department of Transportation, local employers and the business associations, labor organizations and transit authority riders. The plan shall include, but not be limited to:

1. A comprehensive assessment of transit services;
2. A thorough examination of the ridership trends for each line and service provided by the regional transit authority;
3. A performance analysis of existing services;

4. The development and evaluation of alternative service scenarios;
5. The development of a recommendation to better align service with local and regional demand;
6. The commonwealth's environmental policies;
7. Fare rates and collection methods;
8. The region's job creation goals and employment needs; and
9. A determination of whether the regional transit authority's service is deployed in the most effective way possible to accommodate the transit needs of the region's workforce. The development of the plan shall include public hearings in different regions of the Commonwealth and the opportunity to comment on a draft report.

MART joined with nine of the other RTA's in a joint procurement and engaged a consultant to conduct this service analysis and write this regional plan for MART. A Steering Committee was formed which includes the Montachusett Regional Planning Commission and several other community stakeholders. The Committee reviews the chapters of the report and provides valuable feedback to MART and the consultant (URS Corp/AECom). Public hearings were held in April 2015 to present the recommendations for improvements/changes to MART's fixed route bus system. The plan/report was submitted to MassDOT no later than June 30, 2015. Additional public hearings were held in August 2015 to present the final report to the public. Service changes as a result of this report will be implemented in three phases; the first of which was effective on March 1, 2016.

## **SUMMARY OF PROGRAMMED FUNDS BY FUNDING CATEGORY**

---

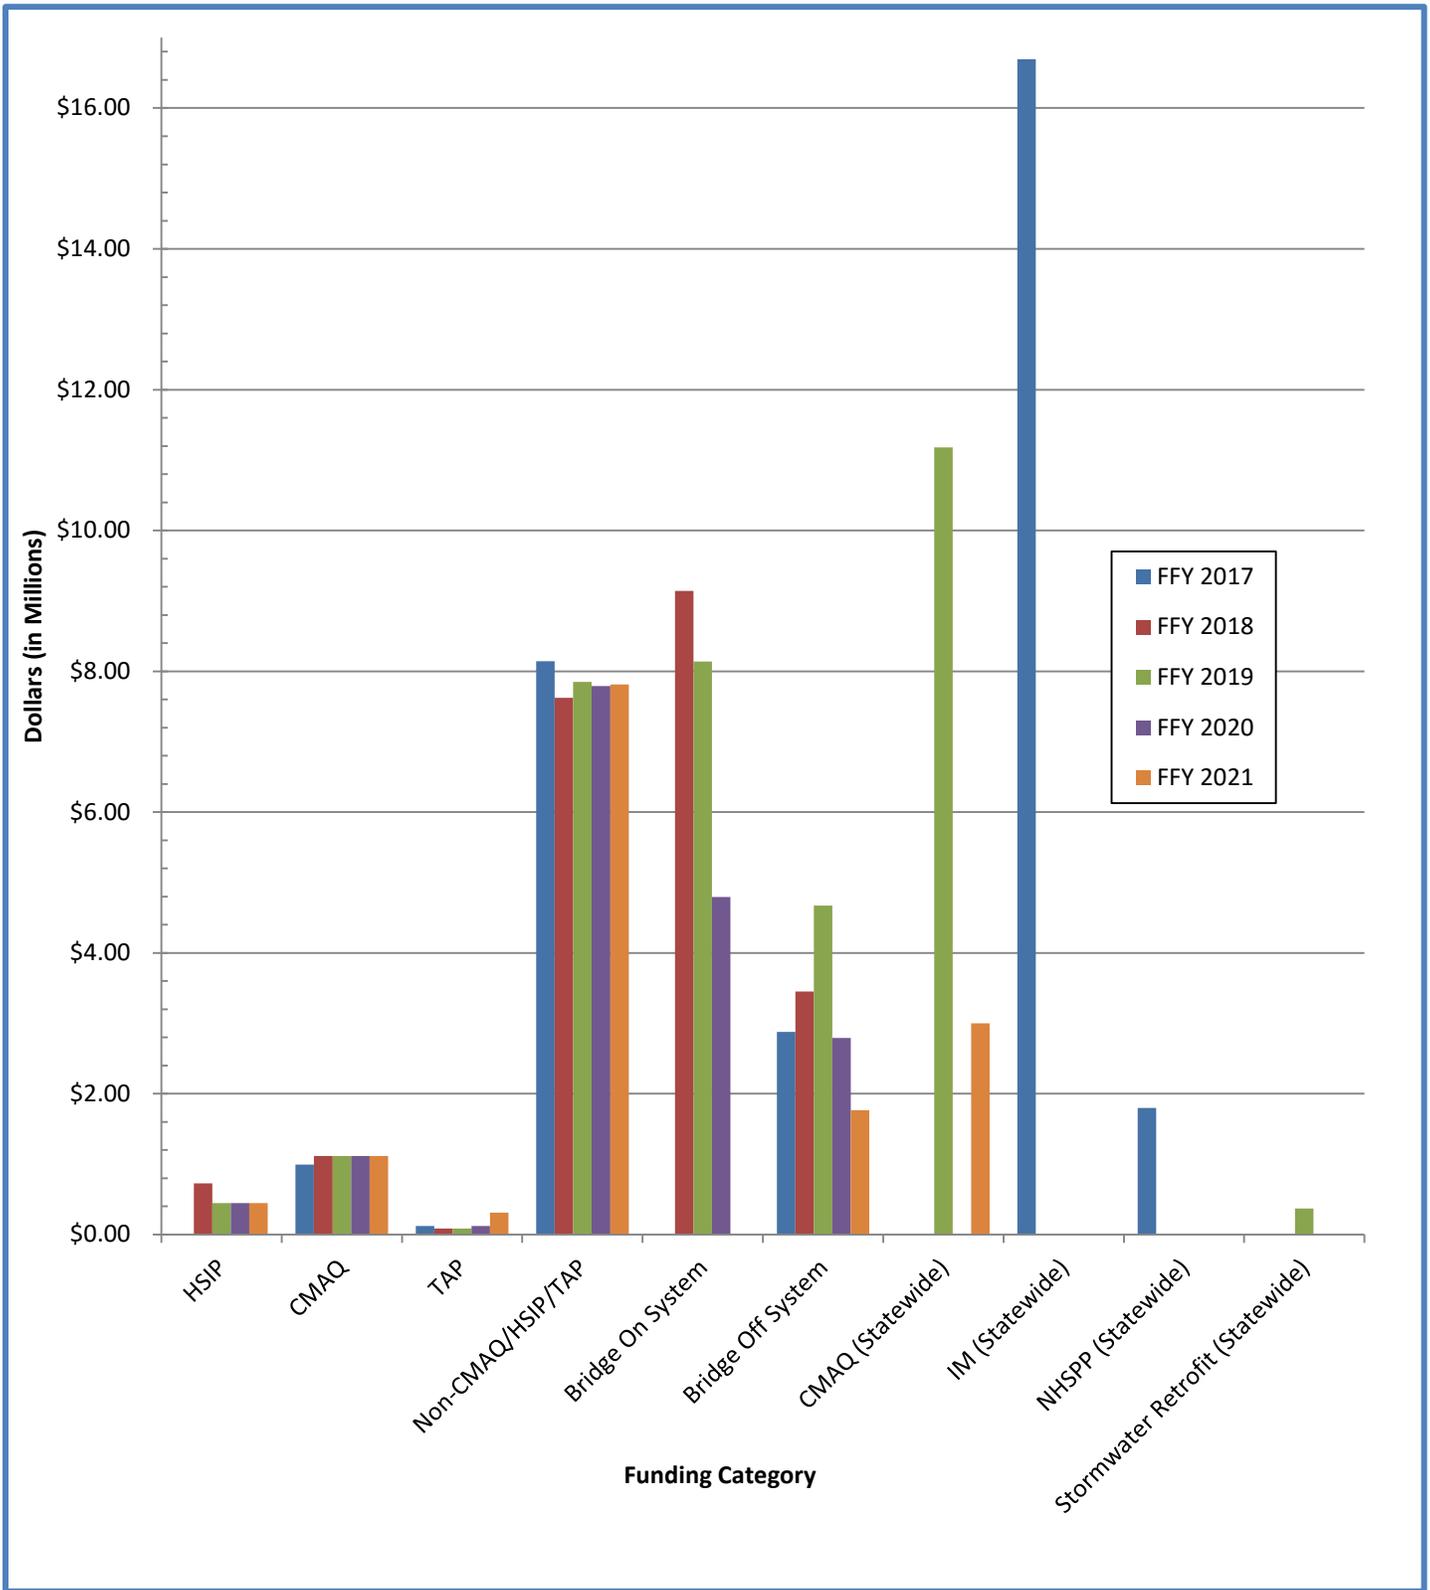

The following table and chart present a summary of total funds programmed within the Montachusett Region by funding category for each federal fiscal year of this TIP. All figures presented represent the total project costs, i.e. federal/state/local amounts combined, for that particular funding category.

## SUMMARY OF PROGRAMMED FUNDS BY FUNDING CATEGORY

Funding Category	FFY 2017	FFY 2018	FFY 2019	FFY 2020	FFY 2021	Total FFY 2017- 2021

## SUMMARY OF PROGRAMMED FUNDS BY FUNDING CATEGORY - GRAPHICALLY

## **TRANSPORTATION AND TRANSIT PROJECT PRIORITIES: FEDERAL & STATE SECTIONS**

---

Please note that the projects listed represent the best available information at the time of compilation. Actual implementation is subject to right of way, design, land taking, local action and/or other issues that could delay project time frames and subsequently advertising and award dates.

In addition, federal guidance requires that the TIP reflect Year of Expenditure (YOE) dollars for projects and programs. To accommodate this requirement, individual project cost estimates provided by MassDOT have been adjusted by a four percent per year inflation factor depending upon its year of placement in the TIP (for this TIP, Federal Years 2018, 2019, 2020 and 2021). Year 1 cost estimates remain as provided but projects in Year 2, 3, 4 or 5 (i.e. FFY 2018, 2019, 2020 or 2021) have been increased by a YOE factor of 4%, 8%, 12% or 16%, respectively.

701 CMR 7.00 Use of Road Flaggers and Police Details on Public Works Projects / 701 CMR 7.00 (the Regulation) was promulgated and became law on October 3, 2008. Under this Regulation, the CMR is applicable to any Public works Project that is performed within the limits of, or that impact traffic on, any Public Road. The Municipal Limitation referenced in this Regulation is applicable only to projects where the Municipality is the Awarding Authority. For all projects contained in the TIP, the Commonwealth is the Awarding Authority. Therefore, all projects must be considered and implemented in accordance with 701 CMR 7.00, and the Road Flagger and Police Detail Guidelines. By placing a project on the TIP, the Municipality acknowledges that 701 CMR 7.00 is applicable to its project and design and construction will be fully compliant with this Regulation. This information, and additional information relative to guidance and implementation of the Regulation can be found at the following link on the MassDOT Highway Division website: <http://www.massdot.state.ma.us/Highway/flaggers/main.aspx>

701 CMR 7.00 Use of Road Flaggers and Police Details on Public Works Projects / 701 CMR 7.00 (the Regulation) was promulgated and became law on October 3, 2008. Under this Regulation, the CMR is applicable to any Public works Project that is performed within the limits of, or that impact traffic on, any Public Road. The Municipal Limitation referenced in this Regulation is applicable only to projects where the Municipality is the Awarding Authority. For all projects contained in the TIP, the Commonwealth is the Awarding Authority. Therefore, all projects must be considered and implemented in accordance with 701 CMR 7.00, and the Road Flagger and Police Detail Guidelines. By placing a project on the TIP, the Municipality acknowledges that 701 CMR 7.00 is applicable to its project and design and construction will be fully compliant with this Regulation. This information, and additional information relative to guidance and implementation of the Regulation can be found at the following link on the MassDOT Highway Division website: <http://www.massdot.state.ma.us/Highway/flaggers/main.aspx>

701 CMR 7.00 Use of Road Flaggers and Police Details on Public Works Projects / 701 CMR 7.00 (the Regulation) was promulgated and became law on October 3, 2008. Under this Regulation, the CMR is applicable to any Public works Project that is performed within the limits of, or that impact traffic on, any Public Road. The Municipal Limitation referenced in this Regulation is applicable only to projects where the Municipality is the Awarding Authority. For all projects contained in the TIP, the Commonwealth is the Awarding Authority. Therefore, all projects must be considered and implemented in accordance with 701 CMR 7.00, and the Road Flagger and Police Detail Guidelines. By placing a project on the TIP, the Municipality acknowledges that 701 CMR 7.00 is applicable to its project and design and construction will be fully compliant with this Regulation. This information, and additional information relative to guidance and implementation of the Regulation can be found at the following link on the MassDOT Highway Division website:  
<http://www.massdot.state.ma.us/Highway/anners/main.aspx>

## FEDERAL REQUIREMENTS

---

**Financial Plan for the FFY 2017-2021 Transportation Improvement Program  
Montachusett Metropolitan Planning Organization**

The financial plan contained herein is financially constrained and indicates that the Montachusett Metropolitan Planning Organization Transportation Improvement Program (TIP) reflects the highway program emphasis on the maintenance and operation of the current roadway and bridge system with the ability to provide for additional capital improvements. Only projects for which funds can be expected have been included.

The following table compares anticipated federal target funds (Federal \$ (M) Target/Availability) to the federal funds for those projects programmed in each Fiscal Year (Federal \$ (M) Programmed). For each fiscal year programmed funds do not exceed anticipated target funds.

		2017			
Federal Agency	Funding Category	Total \$ (M) Programmed	Federal \$ (M) Programmed	Non-Federal \$ (M) Programmed	Federal \$ (M) Target/Availability

1. Moneys do not include statewide federal aid or Regional "Mega" projects which are programmed but are excluded from the regional targets provided to MRPC.
2. FTA Programmed amounts are Federal dollars only and do not include state or local shares.

## Montachusett Regional Transit Authority (MART) Operating and Fiscal Data

This 5 year program for the 2017-2021 timeframe further demonstrates the financial capacity of the Montachusett Regional Transit Authority to meet both current and future operating and capital costs.

**Montachusett MPO - Operations and Maintenance Summary Table for the Montachusett Regional Transit Authority - State Fiscal Year 2016**

The numbers below represent actual numbers for the previous year, the current year budget/forecast approved by the RTA Advisory Board, and projections for the out-years as used in the Program Preview meetings with the State. These numbers indicate that there are sufficient revenues projected to meet the operating needs of the area transit authority.

<b>Operating Revenue</b>	<b>Previous</b>	<b>Current</b>	<b>Year Two</b>	<b>Year Three</b>	<b>Year Four</b>
	<b>2015</b>	<b>2016</b>	<b>2017</b>	<b>2018</b>	<b>2019</b>

Footnotes:

\* Fully funded refers to contracted transportation work with Human Service Transportation Agencies (revenue) and Service Providers (expense).

\*\* Operating assistance provided by the State plus state Earmark for Dial-A-Ride Service in Athol.

\*\*\* Description of Operating Expenses: Salaries, Wages & Fringe Benefits; Legal; Audit and Professional Consultant Services; Marketing; Insurance; Property Rental; Non-capital Maintenance/Repair/Small Equipment; Fuel; Tires; Office Supplies; Interest; Utilities; Management Fees; Travel/Training/Meetings; Ticket Agency & miscellaneous items.

**Major Expansion or Other Capital Projects**

MART is involved in one major and other minor capital building projects:

- 1) Fitchburg commuter rail line extension to a new Wachusett Station with Parking & Layover facility
- 2) Infrastructure improvements and energy conservation measures to all of our facilities

## Operating vs Capital Expenditures

For the purposes of this table, operating projects under the Highway section are considered those projects that maintain the operation of existing facilities or infrastructure, i.e. resurfacing/rehabilitation of road surfaces, rehabilitation/replacement of a bridge, intersection geometrics, etc. Capital projects are assumed to be those projects that involve the construction of a new facility to the transportation network.

In the case of the Highway Element of this TIP, two projects were considered to be capital expenditures. One project occurs in FFY 2019, project #608193 Fitchburg/Leominster Twin City Rail Trail and one in FFY 2021, project #607347 Gardner North Central Pathway Phase VI.

On the Transit side, capital projects were assumed to include rehabilitation/renovation projects on existing transit facilities.

FFY		Highway (Fed & NFA)	Transit (Fed & NFA)	Total	Percent of Total
2017	Operating	\$30,631,979	\$4,300,000	\$34,931,979	95.79%
	Capital	\$0	\$1,534,500	\$1,534,500	4.21%

RTA	Section	Description	Federal Funds	Approval Status	Grant #	Comments
Montachusett	5307	50/50 Operating Assistance	\$2,100,000	Un-obligated	TBD	Awaiting award & execution of grant.
Montachusett	5307	ADA Paratransit Service	\$234,257	Un-obligated	TBD	Awaiting award & execution of grant.
Montachusett	5307	Replace Paratransit Vans	\$230,000	Un-obligated	TBD	Awaiting award & execution of grant.
Montachusett	5307	Rehab Bus Support Facil/Equip	\$68,000	Un-obligated	TBD	Awaiting award & execution of grant.
Montachusett	5307	Acquire Misc. Support Equip.	\$120,000	Un-obligated	TBD	Awaiting award & execution of grant.
Montachusett	5307	Rehab Admin/Main Facility	\$79,200	Un-obligated	TBD	Awaiting award & execution of grant.
Montachusett	5307	Acquire Shop Equipment	\$56,000	Un-obligated	TBD	Awaiting award & execution of grant.
Montachusett	5307	Rehab Bus Park & Ride Lot – Fitchburg Decks & CMU Walls	\$264,000	Un-obligated	TBD	Awaiting award & execution of grant.
Montachusett	5307	Terminal, Intermodal (Transit)	\$29,384	Un-obligated	TBD	Awaiting award & execution of grant.
Montachusett	5307	Acquire Misc Bus Station Equip	\$52,000	Un-obligated	TBD	Awaiting award & execution of grant.
Montachusett	5307/5337/5339	Rehab Bus Park & Ride Lot – Nashua St Decks	\$76,616	Un-obligated	TBD	Awaiting award & execution of grant.
Montachusett	5307	Operating Assistance	\$2,344,000	Obligated	MA-90-X722	Fully expended in FY15
Montachusett	5307	Purchase Replacement Buses	\$660,000	Obligated	MA-90-X722	Fully expended by June 2016
Montachusett	5307	Security Surveillance Cameras	\$40,000	Obligated	MA-90-X705	\$34,400 fed outlay thru 8/15; balance under contract
Montachusett	5307	Rehab Maintenance Fac.	\$204,000	Obligated	MA-90-X705	\$184,150 in obligations will finish by 6/30/16
Montachusett	5307	Acquire Misc Support Equip	\$240,000	Obligated	MA-90-X705	\$78,600 in fed outlay in FY16; bal. delayed to 2017
Montachusett	5307	Acquire Stationary Fare Collect Equip	\$90,400	Obligated	MA-90-X668	\$49,740 Fed outlay thru Mar 2016. Balance awaiting invoice in June.
Montachusett	5307	Acquire Security Equip	\$12,000	Obligated	MA-90-X668	\$6,070 Fed outlay thru Mar 2016.
Montachusett	5307	Transit Enhance – Rehab Bus Shelters	\$20,000	Obligated	MA-90-X668	Fully expended as of Feb 2016.
Montachusett	5307	Rehab Admin/Maint. Fac.	\$170,589	Obligated	MA-90-X668	\$3,671 Fed outlay. State match spent to avoid lapse. Project delayed to find additional funds.
Montachusett	5309 SGR	Maintenance & ITC Bldg Improvements	\$980,000	Obligated	MA-04-0061	\$967,724 Fed Outlay thru Mar 2016
Montachusett	5309 TIGGER	Solar PV & Energy Conservation	\$1,678,500	Obligated	MA-88-0001	\$1,299,556 Fed Outlay thru Mar 2016
Montachusett	FHWA 113	Ayer Parking Lot Improvements	\$3,229,064	Obligated	MA-55-0006	\$4,944 in outlays, \$18K+ in obligations due in June.

# **AIR QUALITY CONFORMITY INFORMATION - MONTACHUSETT METROPOLITAN PLANNING ORGANIZATION - FFY 2016-2019 TRANSPORTATION IMPROVEMENT PROGRAM**

---

Since most all of Massachusetts (with limited exceptions) was designated on 5/21/12 by the United States Environmental Protection Agency as “unclassifiable/attainment” for the latest ozone standard, a conformity determination for the Montachusett 2017-21 TIP is not required. Further details and background information are provided below:

## **Introduction**

The 1990 Clean Air Act Amendments (CAAA) require metropolitan planning organizations within nonattainment and maintenance areas to perform air quality conformity determinations prior to the approval of Long-Range Transportation Plans (L RTPs) and Transportation Improvement Programs (TIPs), and at such other times as required by regulation. A nonattainment area is one that the U.S. Environmental Protection Agency (EPA) has designated as not meeting certain air quality standards. A maintenance area is a nonattainment area that now meets the standards and has been re-designated as maintaining the standard. A conformity determination is a demonstration that plans, programs, and projects are consistent with the State Implementation Plan (SIP) for attaining the air quality standards. The CAAA requirement to perform a conformity determination ensures that federal approval and funding go to transportation activities that are consistent with air quality goals.

The entire Commonwealth of Massachusetts was previously classified as nonattainment for ozone, and was divided into two nonattainment areas. The Eastern Massachusetts ozone nonattainment area included Barnstable, Bristol, Dukes, Essex, Middlesex, Nantucket, Norfolk, Plymouth, Suffolk, and Worcester counties. Berkshire, Franklin, Hampden, and Hampshire counties comprised the Western Massachusetts ozone nonattainment area. With these classifications, the 1990 Clean Air Act Amendments (CAAA) required the Commonwealth to reduce its emissions of volatile organic compounds (VOCs) and nitrogen oxides (NO<sub>x</sub>), the two major precursors to ozone formation to achieve attainment of the ozone standard.

## **Legislative and Regulatory Background**

The 1970 Clean Air Act defined a one-hour national ambient air quality standard (NAAQS) for ground-level ozone. The 1990 CAAA further classified degrees of nonattainment of the one-hour standard based on the severity of the monitored levels of the pollutant. The entire commonwealth of Massachusetts was classified as being in serious nonattainment for the one-hour ozone standard, with a required attainment date of 1999. The attainment date was later extended, first to 2003 and a second time to 2007.

In 1997, the EPA proposed a new, eight-hour ozone standard that replaced the one-hour standard, effective June 15, 2005. Scientific information had shown that ozone could affect human health at lower levels, and over longer exposure times than one hour. The new standard was challenged in court, and after a lengthy legal battle, the courts upheld it. It was finalized in June 2004. The eight-hour standard is 0.08 parts per million, averaged over eight hours and not to be exceeded more than once per year. Nonattainment areas were again further classified based on the severity of the eight-hour values. Massachusetts as a whole was classified as being in moderate nonattainment for the eight-hour standard, and was separated into two nonattainment areas—Eastern Massachusetts and Western Massachusetts.

In March 2008, EPA published revisions to the eight-hour ozone NAAQS establishing a level of 0.075 ppm, (March 27, 2008; 73 FR 16483). In 2009, EPA announced it would reconsider this standard because it fell outside of the range recommended by the Clean Air Scientific Advisory Committee. However, EPA did not take final action on the reconsideration so the standard would remain at 0.075 ppm.

After reviewing data from Massachusetts monitoring stations, EPA sent a letter on December 16, 2011 proposing that only Dukes County would be designated as nonattainment for the new proposed 0.075 ozone standard. Massachusetts concurred with these findings.

On May 21, 2012, (77 FR 30088), the final rule was published in the Federal Register, defining the 2008 NAAQS at 0.075 ppm, the standard that was promulgated in March 2008. A second rule published on May 21, 2012 (77 FR 30160), revoked the 1997 ozone NAAQS to occur one year after the July 20, 2012 effective date of the 2008 NAAQS.

Also on May 21, 2012, the air quality designations areas for the 2008 NAAQS were published in the Federal Register. In this Federal Register, the only area in Massachusetts that was designated as nonattainment is Dukes County. All other Massachusetts counties were classified as unclassifiable/attainment.

Therefore, conformity for ozone in the Montachusett MPO is required until July 20, 2013 for only the 1997 ozone standard. Since this 2017-21 TIP will complete its collective development, review, and approval by the Federal Highway Administration after July 20, 2013 – when this standard will be revoked, and since the latest area designations do not require conformity under the current 2008 standard, the MPO does not need to perform a conformity determination for ozone on the program.

## **SPECIAL EFFORTS FOR ELDERLY AND DISABLED**

---

The U.S. Department of Transportation's regulations regarding Nondiscrimination on the Basis of Handicap requires that transit operators certify that "special efforts are being made in its service to provide transportation that handicapped persons, including wheelchair users and semi-ambulatory persons can use." The Montachusett Regional Transit Authority (MART) has been so certified by FTA. The Montachusett Regional Planning Commission annually monitors and updates MART's compliance with the Americans with Disabilities Act Regulations. In compliance with a DOT rule to implement the transportation provisions of the ADA, MART has submitted an ADA compliance Para-transit plan and at this time has met all six criteria established by the Regulations; therefore the ADA plan is complete.

The following policies regarding special efforts are currently in effect.

- half fare on fixed route transit for eligible elderly and disabled individuals;
- fixed route service designed to serve elderly housing, shopping centers, medical facilities, and elderly social centers;
- curb-to-curb service with lift equipped vans provided by local Councils on Aging/private operators;
- half fare on commuter rail service for elderly and disabled individuals;
- continuation of next day ADA eligible van service which operates the same hours as fixed route service;
- operation of Dial-A-MART program which is a coordination of transportation needs of clients of social service agencies;
- no restriction on trip purpose for ADA Para-transit services;
- a twenty percent discount on monthly bus passes for eligible elderly and disabled individuals;
- a twenty percent discount on monthly bus passes for veterans

### *FY17 Projects*

Projects in the FY17 TIP in the Section 5307 category contain program elements for the elderly and disabled. The estimated costs in the Year 1 Element in the Section 5307 category include the costs of operating the special services described above.

## **APPENDIX A – REGIONAL PRIORITIES FOR WHICH FUNDING HAS NOT BEEN IDENTIFIED**

---

**(For Informational Purposes)**

Please note that the projects listed represent the best available information at the time of compilation. Actual implementation is subject to right of way, design, land taking, local action and/or other issues that could delay project time frames and subsequently advertising and award date

	Housing stock	<input type="text"/>	(-1 to +1)
	<b>14 Does the project have an effect (positive or negative) on any services to minority, low income or Environmental Justice areas (ex. Transit service, sidewalks, lighting, utilities, etc.)?</b>		<input type="text" value="0"/>
	Transit services	<input type="text"/>	(-1 to +1)
	Sidewalks/lighting	<input type="text"/>	(-1 to +1)
	Utilities	<input type="text"/>	(-1 to +1)
	Emergency response	<input type="text"/>	(-1 to +1)
	<b>15 Does the project have any other impacts or benefits (positive or negative) to minority, low income or Environmental Justice areas (ex. Job access, development and/or redevelopment of any housing stock, etc.)?</b>		<input type="text" value="0"/>
	Job access	<input type="text"/>	(-1 to +1)
	Housing stock	<input type="text"/>	(-1 to +1)
	Safety	<input type="text"/>	(-1 to +1)
	Other	<input type="text"/>	(-1 to +1)
	<b>16 Is there support for the project from local, regional, legislative governments and the general public?</b>		<input type="text" value="0"/>
	Local governments	<input type="text"/>	(-1 to +1)
Multiple Local governments	<input type="text"/>	(-1 to +1)	
Legislative government	<input type="text"/>	(-1 to +1)	
General public	<input type="text"/>	(-1 to +1)	
<b>17 Is there active participation from the community in the MPO, MRPC and MJTC?</b>		<input type="text" value="0"/>	
MPO	<input type="text"/>	(-1 to +1)	
MRPC	<input type="text"/>	(-1 to +1)	
MJTC	<input type="text"/>	(-2 to +2)	

Land Use and Economic Development	<b>18</b>	<b>Is there any impact or change (positive or negative) to business (commercial and/or industrial) areas related to right-of-way, general access, noise, traffic, parking, freight access or other?</b>		<input type="text" value="0"/>
		Right-of-way	<input type="text"/> (-1 to +1)	
		Noise/aesthetics	<input type="text"/> (-1 to +1)	
		Traffic flow/parking	<input type="text"/> (-1 to +1)	
		Freight access/Other	<input type="text"/> (-1 to +1)	
		<b>19</b>	<b>Is the project in accordance with state, regional or local concepts related to sustainable development?</b>	<input type="text" value="0"/>
		Local plans	<input type="text"/> (-1 to +1)	
		Regional plans	<input type="text"/> (-1 to +1)	
		State plans	<input type="text"/> (-1 to +1)	
		Other plans (ex. Federal, etc.)	<input type="text"/> (-1 to +1)	
		<b>20</b>	<b>Is the project consistent with any regional land-use and/or economic development plans and does it have any effect on job creation?</b>	<input type="text" value="0"/>
		Regional land use	<input type="text"/> (-1 to +1)	
		Regional economic development	<input type="text"/> (-1 to +1)	
	Support job creation	<input type="text"/> (-2 to +2)		
	<b>21</b>	<b>Is the project part of or located on any transportation security or evacuation route or provide access to any major emergency facility?</b>	<input type="text" value="0"/>	
	Local evacuation route	<input type="text"/> (-1 to +1)		
	Regional evacuation route	<input type="text"/> (-1 to +1)		
	Access to emergency facilities	<input type="text"/> (-2 to +2)		
Environmental Effects	<b>22</b>	<b>Does the project have an impact (positive or negative) on Air Quality, Climate standards and/or Green House Gas (GHG) emissions?</b>		<input type="text" value="0"/>
		Air quality impact Positive/Negative/None	<input type="text"/> (-4 to +4)	
	<b>23</b>	<b>Does the project have an impact (positive or negative) on water quality, supply or wetlands?</b>		<input type="text" value="0"/>
		Water quality/supply/wetlands impact Positive/Negative/None	<input type="text"/> (-4 to +4)	
	<b>24</b>	<b>Does the project have an impact (positive or negative) on historic and/or cultural resources?</b>		<input type="text" value="0"/>
		Historic/cultural impact Positive/Negative/None	<input type="text"/> (-4 to +4)	
<b>25</b>	<b>Does the project have an impact (positive or negative) on wildlife habitats and/or endangered species?</b>		<input type="text" value="0"/>	
	Wildlife/endangered species impact Positive/Negative/None	<input type="text"/> (-4 to +4)		
				<b>Total TEC Score</b> <input type="text" value="0"/>

**APPENDIX C – 2016 – 2021 TIP GREENHOUSE GAS MONITORING AND EVALUATION**

---

## Introduction

This section summarizes the greenhouse gas (GHG) impacts that are anticipated to result from the projects that are included in this FFY 2017 – 2021 Transportation Improvement Program (TIP). It includes a summary of the state laws and policies that call for reducing greenhouse gas in order to mitigate global climate change, actions that are being to respond to these state laws and policies, the role of regional planning and TIP development in reducing GHG emission and tracking these reductions, and the projected GHG emission impacts from the projects programmed in the TIP.

## State Policy Context

The Global Warming Solutions Act (GWSA), which was signed into law in August 2008, makes Massachusetts a leader in setting aggressive and enforceable GHG reduction targets, and implementing policies and initiatives to achieve these targets. In keeping with the law, on December 29, 2010 the Massachusetts Executive Office of Energy and Environmental Affairs (EOEEA), in consultation with other state agencies and the public, released the Massachusetts *Clean Energy and Climate Plan for 2020*. In December 2014 the Department of Environmental Protection issued new regulations that require Metropolitan Planning Organizations to quantify impacts from project investments, track progress towards reductions, and consider impacts in the prioritization of GHG impacts from project investments. The targets for overall statewide GHG emissions are:

- By 2020: 25 percent reduction below statewide 1990 GHG emission levels
- By 2050: 80 percent reduction below statewide 1990 GHG emission levels

## GreenDOT Policy

The transportation sector is the single largest emitter of greenhouse gases, accounting for over a third of GHG emissions, and therefore the transportation sector is a key focus of the *Clean Energy and Climate Plan*. MassDOT's approach to supporting the implementation of the plan is set forth in its GreenDOT Policy Directive, a comprehensive sustainability initiative that sets three principal objectives:

- **Reduce greenhouse gas (GHG) emissions.** MassDOT will achieve this by taking GHG emissions into account in all of its responsibilities, from strategic planning to project design and construction and system operations.
- **Promote the healthy transportation modes of walking, bicycling, and public transit.** MassDOT will achieve this by pursuing multi-modal, "complete streets" design standards; providing choice in transportation services; and by working with MPOs and other partners to prioritize and program a balance of projects that serve drivers, pedestrians, bicyclists, and public transit riders.
- **To support smart growth development.** MassDOT will achieve this by working with MPOs and other partners to make transportation investments that enable denser, smart growth development patterns that support reduced GHG emissions.

## GreenDOT Policy and Metropolitan Planning Organizations

The Commonwealth's thirteen metropolitan planning organizations (MPOs) are integrally involved in helping to achieve the GreenDOT goals and supporting the GHG reductions mandated under the GWSA. The MPOs are most directly involved in helping to achieve the GHG emissions reductions under the second goal – to promote healthy transportation modes through prioritizing and programming an appropriate balance of roadway, transit, bicycle and pedestrian investments – and assist in the third goal by supporting smart growth development patterns through the creation of a balanced multi-modal transportation system. This will be realized through the transportation goals and policies espoused in the 2016 Regional Transportation Plans (RTPs), the major projects planned in the RTPs, and the mix of new transportation projects that are programmed and implemented through the TIPs. The GHG tracking and evaluation processes enable the MPOs to identify the anticipated GHG impacts of the planned and programmed projects, and also to use GHG impacts as a criterion in prioritizing transportation projects.

## Regional GHG Tracking and Evaluation In RTPs

MassDOT coordinated with MPOs and regional planning agency (RPA) staffs on the implementation of GHG tracking and evaluation in development of each MPO's 2035 RTPs, which were adopted in September 2011. This collaboration has continued for the MPO's 2040 RTPs and 2016-19 TIPs.

Working together, MassDOT and the MPOs have attained the following milestones:

- Modeling and long-range statewide projections for GHG emissions resulting from the transportation sector. Using the Boston MPO's regional model and the statewide travel demand model for the remainder of the state, GHG emissions were projected for 2020 no-build and build conditions, and for 2040 no-build and build conditions.
- All of the MPOs included these GHG emission projections in their RTPs, along with a discussion of climate change and a statement of MPO support for reducing GHG emissions as a regional goal.

### **Project-Level GHG Tracking and Evaluation in the Transportation Improvement Program**

It is also important to monitor and evaluate the GHG impacts of the transportation projects that are programmed in the MPO Transportation Improvement Programs (TIP). The TIP includes both the larger, regionally-significant projects from the RTPs, which have already had their aggregate GHG impacts calculated and reported in the RTP, as well as smaller projects that are not included in the RTP but that may nevertheless have impacts on GHG emissions. The principal objective of this tracking is to enable the MPOs to evaluate expected GHG impacts of different projects and to use this information as a criterion for prioritizing and programming projects in future TIPs.

In order to monitor and evaluate the GHG impacts of TIP projects, MassDOT and the MPOs have developed the following approach for identifying anticipated GHG impacts and quantifying GHG impacts of projects, when appropriate, through the TIP. Different types of projects will have different anticipated GHG emissions impacts. The different project categories are outlined on the next two pages with this region's project tracking sheet on the third page.

### **Calculation of GHG Impacts For TIP Projects**

The Office of Transportation Planning at MassDOT provided the spreadsheets that are used for determining Congestion Management and Air Quality Improvement (CMAQ) eligibility. These spreadsheets require the same inputs as the CMAQ calculations, and have been adapted to provide CO<sub>2</sub> impacts. The data and analysis required for these calculations is available from functional design reports that should be submitted for projects that would produce a measurable GHG impact.

- **Projects with Quantified Impacts**
  - **RTP Projects** - Major capacity expansion projects would be expected to have a significant impact on GHG emissions. However, these projects are included in the RTPs and analyzed using the statewide model or Boston regional model, which would reflect their GHG impacts. Therefore, no independent TIP calculations are required.
  - **Quantified Decrease in Emissions** - Projects that would be expected to produce a measurable decrease in emissions. The approach for calculating these impacts is described below. These projects should be categorized in the following manner:
    - **Quantified Decrease in Emissions from Traffic Operational Improvement** - An intersection reconstruction or signalization project that is projected to reduce delay and congestion.
    - **Quantified Decrease in Emissions from Pedestrian and Bicycle Infrastructure** - A shared-use path that would enable increased walking and biking and decreased vehicle-miles traveled (VMT).
    - **Quantified Decrease in Emissions from New/Additional Transit Service** - A bus or shuttle service that would enable increased transit ridership and decreased VMT
    - **Quantified Decrease in Emissions from a Park and Ride Lot** A park-and-ride lot that would enable increased transit ridership/ increased ridesharing and decreased VMT
    - **Quantified Decrease in Emissions from Bus Replacement**  
A bus replacement that would directly reduce GHG emissions generated by that bus service.

- **Quantified Decrease in Emissions from Complete Streets Improvements**  
Improvements to roadway networks that include the addition of bicycle and pedestrian accommodations where none were present before.
  - **Quantified Decrease in Emissions from Other Improvement**
- **Quantified Increase in Emissions** – Projects that would be expected to produce a measurable increase in emissions.
- **Projects with Assumed Impacts**
  - **No Assumed Impact/Negligible Impact on Emission** - Projects that do not change the capacity or use of a facility (e.g. a resurfacing project that restores a roadway to its previous condition, or a bridge rehabilitation/replacement that restores the bridge to its previous condition) would be assumed to have no GHG impact.
  - **Assumed Nominal Decrease in Emissions** - Projects that would be expected to produce a minor decrease in emissions that cannot be calculated with any precision. Examples of such projects include roadway repaving or reconstruction projects that add a new sidewalk or new bike lanes. Such a project would enable increased travel by walking or bicycling, but there may be not data or analysis to support any projections of GHG impacts. These projects should be categorized in the following manner:
    - **Assumed Nominal Decrease in Emissions from Sidewalk Infrastructure**
    - **Assumed Nominal Decrease in Emissions from Bicycle Infrastructure**
    - **Assumed Nominal Decrease in Emissions from Sidewalk and Bicycle Infrastructure**
    - **Assumed Nominal Decrease in Emissions from Intelligent Transportation Systems (ITS) and/or Traffic Operational Improvements**
    - **Assumed Nominal Decrease in Emissions from Other Improvements**
  - **Assumed Nominal Increase in Emissions** - Projects that would be expected to produce a minor increase in emissions that cannot be calculated with any precision.

## Regional Greenhouse Gas Impact Summary Tables for FFY 2017 – 2021 TIP

The following tables summarize the calculated quantitative and assumed qualitative impacts of the projects included in the regional FFY 2016 – 2019 TIP.

### 2017 Regional Project Tracking

MassDOT Project ID	MassDOT Project Description	GHG Analysis Type	GHG Impact Description	GHG Impact by the Numbers Change in Summer CO <sub>2</sub> Emissions (kilograms/year)
606124	FITCHBURG- LUNENBURG-LEOMINSTER- RECONSTRUCTION OF SUMMER STREET AND NORTH STREET	Quantified	Quantified Decrease in Emissions from Traffic Operational Improvement (See Emissions Analysis Appendix)	See FFY 2018 for Numbers
607252	GARDNER - RESURFACING & RELATED WORK ON MATTHEW STREET	Qualitative	No Assumed Impact/Negligible Impact on Emissions	N/A
606435	HUBBARDSTON- RESURFACING AND RELATED WORK ON ROUTE 68, FROM WILLIAMSVILLE ROAD TO THE RUTLAND T.L.	Qualitative	No Assumed Impact/Negligible Impact on Emissions	N/A
607321	TEMPLETON - RESURFACING & RELATED WORK ON A SECTION OF ROUTE 68 FROM THE GARDNER CITY LINE TO THE END OF STATE HIGHWAY (2.0 MILES)	Qualitative	No Assumed Impact/Negligible Impact on Emissions	N/A
608542	WINCHENDON - RESURFACING & RELATED WORK ON ROUTE 140, FROM TEEL ROAD TO 430 FT. SOUTH OF ROUTE 12 (1.1 MILES)	Qualitative	No Assumed Impact/Negligible Impact on Emissions	N/A
608250	ROYALSTON - BRIDGE REPLACEMENT, R-12-001, STOCKWELL ROAD OVER LAWRENCE BROOK	Qualitative	No Assumed Impact/Negligible Impact on Emissions	N/A
606575	STERLING - LEOMINSTER - LANCASTER - INTERSTATE MAINTENANCE & RELATED WORK ON I-190	Qualitative	No Assumed Impact/Negligible Impact on Emissions	N/A
607475	WINCHENDON - RESURFACING & RELATED WORK ON ROUTE 12, FROM MILL STREET/BEGINNING OF STATE HIGHWAY TO NEW HAMPSHIRE STATE LINE (2.5 MILES)	Qualitative	No Assumed Impact/Negligible Impact on Emissions	N/A
<b>Total Impact</b> (in kilograms/year)				N/A

**EMISSIONS ANALYSIS**

---

# CMAQ Air Quality Analysis Worksheet for Bicycle and Pedestrian Project

FILL IN SHADED BOXES ONLY

**TIP YEAR:** 2017 **Municipality:** Lunenburg, Fitchburg, Leominster  
**MPO:** Montachusett  
**Project:** 606124: Reconstruction of Summer Street and North Street

**Step 1: Calculate Estimated Reduction in Vehicle Miles Traveled (VMT):**

If VMT reduction per year is known then go to Step 2B, if not proceed with Step 1 :

- A. Facility Length (L): 1.6 Miles
- B. Service Area Radius (R): 1.0 Miles (Default = 1 Mile)
- C. Service Area of Community(ies) (SA):  $L * 2R = SA$  3.2 Sq. Miles
- D. Total Land Area of Community(ies) (T): 83 Sq. Miles
- E. Service Area % of Community(ies) Land Area (LA):  $SA / T = LA$  3.9%
- F. Total Population of Community(ies) (TP): 91,163 Persons
- G. Population Served by Facility (P):  $LA * TP = P$  3,515 Persons
- H. Total Number of Households in Community(ies) (HH): 35,544 HH
- I. Number of Households Served by Facility (HS):  $LA * HH = HS$  1,370 HH
- J. Total Number of Workers Residing in Community(ies) (W): 44,992 Persons
- K. Workers Per household (WPHH):  $W / HH = WPHH$  1.27 Persons
- L. Workers in Service Area (WSA):  $HS * WPHH = WSA$  1,735 Persons

M. Population Density of the Service area (PD):  $P / SA = PD$  1,098 Persons Per Sq. Mile

N. If the bicycle and pedestrian commuter mode share is known, enter the percentage at the right. (BMS) 1.6%

If not, use the 2000 US Census Journey to Work data to determine the mode share and enter the percentage to the right.

O. Bike and Ped. Work Utilitarian Trips (BWT):  $WSA * BMS = BWT$  28 One-Way Trips

P. Bike and Ped. Non-Work Utilitarian Trips (BNWT):  $BWT * 1.7 = BNWT$  47 One-Way Trips

(Latest planning assumptions estimate non-work utilitarian trips to be 1.7 times the work utilitarian.)

**Step 2: Calculate the VMT Reduction Per Day:**

A.  $((2 * BWT) + (2 * BNWT)) * (0.5 * L) = VMTR$  119.9 VMTR Per Day

B.  $VMTR * \text{Operating Days Per Year} = 119.9 * 200 = 23,980$  VMTR Per Year

If the Vehicle Miles Traveled Reduction is known enter in the box to the right. VMTR Per Year

Note: A manual entry of the VMTR will override the calculated cell.

**Step 3: MOBILE 6 Emission Factors for Average Commuter Travel Speed:**

Note: Use 35 MPH as a default if average speed is not known. Speed Used: 35 MPH

2016 Auto Summer VOC Factor grams/mile	2016 Auto Summer NOx Factor grams/mile	2016 Auto Summer CO Factor grams/mile	2016 Auto Summer CO2 Factor grams/mile
0.232	0.178	3.540	368.100

**Step 4: Calculate emissions reductions in kilograms per year (Seasonally Adjusted):**

Summer VOC	Summer NOx	Summer CO	Summer CO2
5.7	4.3	86.5	8,826.9

**Step 5: Calculate cost effectiveness (first year cost per kg of emissions reduced)**

Emission	Project Cost	Emission Reduction in kg per year	First year cost per kilogram
Summer VOC	\$1,393,611	5.7 =	\$245,880
Summer NOx	\$1,393,611	4.3 =	\$320,473
Summer CO	\$1,393,611	86.5 =	\$16,114
Summer CO2	\$1,393,611	8,826.9 =	\$158

**CMAQ Air Quality Analysis Worksheet for Traffic Flow and Intersection Improvements**

FILL IN SHADED BOXES ONLY

TIP YEAR: **2014**  
 MPO: **MMPO** Municipality: **Leominster**  
 Project: **Route 13**

**Haws St at Main Street (Route 13) Intersection**

**Step 8: Calculate net emissions change in kilograms per year (seasonally adjusted)**

	Net change per day (kg)	Avg. weekdays X per year	X	Seasonal adj. factor	=	Adj. net change in kg per year
Summer VOC Emissions	0.574	250	X	1.0188	=	146.151
Summer NOx Emissions	0.256	250	X	1.0188	=	65.088
Winter CO Emissions	7.041	250	X	0.9812	=	1,727.258
Summer CO2 Emissions	200.327	250	X	0.9812	=	49,140.104

**Calculate cost effectiveness (first year cost per kg of emissions reduced)**

Emission	Project Cost	Adj. net change in kg per year	=	First year cost per kilogram
Summer VOC	\$6,837,466	146.151	=	\$46,783
Summer NOx	\$6,837,466	65.088	=	\$105,049
Winter CO	\$6,837,466	1,727.258	=	\$3,959
Summer CO2	\$6,837,466	49,140.104	=	\$139

**Mead St at Main Street (Route 13) Intersection**

**Step 8: Calculate net emissions change in kilograms per year (seasonally adjusted)**

	Net change per day (kg)	Avg. weekdays X per year	X	Seasonal adj. factor	=	Adj. net change in kg per year
Summer VOC Emissions	-0.298	250	X	1.0188	=	-75.871
Summer NOx Emissions	-0.133	250	X	1.0188	=	-33.789
Winter CO Emissions	-3.655	250	X	0.9812	=	-896.664
Summer CO2 Emissions	-103.995	250	X	0.9812	=	-25,509.886

**Calculate cost effectiveness (first year cost per kg of emissions reduced)**

Emission	Project Cost	Adj. net change in kg per year	=	First year cost per kilogram
Summer VOC	\$6,837,466	-75.871	=	\$90,120
Summer NOx	\$6,837,466	-33.789	=	\$202,357
Winter CO	\$6,837,466	-896.664	=	\$7,625
Summer CO2	\$6,837,466	-25,509.886	=	\$268

**River St at Main Street (Route 13) Intersection**

**Step 8: Calculate net emissions change in kilograms per year (seasonally adjusted)**

	Net change per day (kg)	Avg. weekdays X per year	X	Seasonal adj. factor	=	Adj. net change in kg per year
Summer VOC Emissions	0.241	250	X	1.0188	=	61.450
Summer NOx Emissions	0.107	250	X	1.0188	=	27.367
Winter CO Emissions	2.961	250	X	0.9812	=	726.231
Summer CO2 Emissions	84.228	250	X	0.9812	=	20,661.121

**Calculate cost effectiveness (first year cost per kg of emissions reduced)**

Emission	Project Cost	Adj. net change in kg per year	=	First year cost per kilogram
Summer VOC	\$6,837,466	61.450	=	\$111,269
Summer NOx	\$6,837,466	27.367	=	\$249,847
Winter CO	\$6,837,466	726.231	=	\$9,415
Summer CO2	\$6,837,466	20,661.121	=	\$331

**Hamilton St at Main Street (Route 13) Intersection**

**Step 8: Calculate net emissions change in kilograms per year (seasonally adjusted)**

	Net change per day (kg)	Avg. weekdays X per year	X	Seasonal adj. factor	=	Adj. net change in kg per year
Summer VOC Emissions	-1.795	250	X	1.0188	=	-457.221
Summer NOx Emissions	-0.799	250	X	1.0188	=	-203.623
Winter CO Emissions	-22.028	250	X	0.9812	=	-5,403.563
Summer CO2 Emissions	-626.703	250	X	0.9812	=	-153,730.205

**Calculate cost effectiveness (first year cost per kg of emissions reduced)**

Emission	Project Cost	Adj. net change in kg per year	=	First year cost per kilogram
Summer VOC	\$6,837,466	-457.221	=	\$14,954
Summer NOx	\$6,837,466	-203.623	=	\$33,579
Winter CO	\$6,837,466	-5,403.563	=	\$1,265
Summer CO2	\$6,837,466	-153,730.205	=	\$44

**Prospect St at Main Street (Route 13) Intersection**

**Step 8: Calculate net emissions change in kilograms per year (seasonally adjusted)**

	Net change per day (kg)	Avg. weekdays X per year	X	Seasonal adj. factor	=	Adj. net change in kg per year
Summer VOC Emissions	-0.339	250	X	1.0188	=	-86.278
Summer NOx Emissions	-0.151	250	X	1.0188	=	-38.424
Winter CO Emissions	-4.157	250	X	0.9812	=	-1,019.657
Summer CO2 Emissions	-118.259	250	X	0.9812	=	-29,009.031

**Calculate cost effectiveness (first year cost per kg of emissions reduced)**

Emission	Project Cost	Adj. net change in kg per year	=	First year cost per kilogram
Summer VOC	\$6,837,466	-86.278	=	\$79,249
Summer NOx	\$6,837,466	-38.424	=	\$177,949
Winter CO	\$6,837,466	-1,019.657	=	\$6,706
Summer CO2	\$6,837,466	-29,009.031	=	\$236

**PROJECT TOTALS**

**Step 8: Calculate net emissions change in kilograms per year (seasonally adjusted)**

	Net change per day (kg)	Avg. weekdays X per year	X	Seasonal adj. factor	=	Adj. net change in kg per year
Summer VOC Emissions	-1.617	250	X	1.0188	=	-411.769
Summer NOx Emissions	-0.720	250	X	1.0188	=	-183.381
Winter CO Emissions	-19.839	250	X	0.9812	=	-4,866.395
Summer CO2 Emissions	-564.402	250	X	0.9812	=	-138,447.898

**Calculate cost effectiveness (first year cost per kg of emissions reduced)**

Emission	Project Cost	Adj. net change in kg per year	=	First year cost per kilogram
Summer VOC	\$6,837,466	-411.769	=	\$16,605
Summer NOx	\$6,837,466	-183.381	=	\$37,286
Winter CO	\$6,837,466	-4,866.395	=	\$1,405
Summer CO2	\$6,837,466	-138,447.898	=	\$49

Revenue miles per year	X Deadhead factor	= fleet miles per year	/ operating days per year	= fleet miles per day	
150,000	1.15	172,500	302	571	
Calculate emissions change in kilograms per summer day					
Change	rate change grams/mile	/ 1000 g/kg	X fleet miles per day	X seasonal adj factor	= change/day in kg
Change in Summer VOC	-250.579	1,000	571	1.0188	-145.820
Change in Summer NOx	-0.063	1,000	571	1.0188	-0.037
Change in Winter CO	-0.160	1,000	571	0.9812	-0.090
Change in Summer CO2	-2.945	1,000	571	1.0000	-1.682
Calculate emissions change in kilograms per year					
Pollutant			= change/day in kg	X op.days per year	= change per year in kg
Summer VOC			-145.820	302	-44037.505
Summer NOx			-0.037	302	-11.089
Winter CO			-0.090	302	-27.108
Summer CO2			-1.682	302	-507.996
Calculate cost effectiveness (cost per kg of emissions reduced)					
Pollutant		Total Project Cost	/ Project Life in years	/ reduction per year in kg	= annual cost per kg
Summer VOC		\$406,250	12	44037.505	\$1
Summer NOx		\$406,250	12	11.089	\$3,053
Winter CO		\$406,250	12	27.108	\$1,249
Summer CO2		\$406,250	12	507.996	\$67

Total Change in CO2 per yr for 6 vans = -3,047.976 kg

## CMAQ Bus Replacement Air Quality Analysis Worksheet

### FILL IN SHADED BOXES ONLY

TIP YEAR: 2021 Bus Replacements  
MPO: Montachusett  
RTA: MART

### Project - Replace 1 (1984) Trolley Bus with 1 (2022) Trolley Bus; BUY REPLACEMENT TROLLEY BUS

Emission Rates in grams/mile at assumed operating speed bin of : 30 MPH

Scenario Comparison	Model Year	Summer VOC (grams/mile)	Summer NOx (grams/mile)	Winter CO (grams/mile)	Summer CO2 (grams/mile)
Existing Model* =	1984	1,193.8400000	1.6216300	19.5714000	7.6752500
New Bus Purchase** =	2022	1,133.2300000	0.0481671	0.7637010	0.2749020

\* Please contact OTP for assistance on Existing Model emission factors - **1996 Diesel Bus Emission Factors**

\*\* MOVES 2014a Commercial Emission Factors - Please Specify the Following:

AM or PM: AM      Restricted or Unrestricted      Restricted

Change (Buy-Base)	-60.610	-1.573	-18.808	-7.400
-------------------	---------	--------	---------	--------

#### Calculate fleet vehicle miles per day:

Revenue miles per year	X Deadhead factor	= fleet miles per year	/ operating days per year	= fleet miles per day
15,000	1.15	17,250	150	115

#### Calculate emissions change in kilograms per summer day

Change	rate change grams/mile	/ 1000 g/kg	X fleet miles per day	X seasonal adj factor	= change/day in kg
Change in Summer VOC	-60.610	1,000	115	1.0188	<b>-7.101</b>
Change in Summer NOx	-1.573	1,000	115	1.0188	<b>-0.184</b>
Change in Winter CO	-18.808	1,000	115	0.9812	<b>-2.122</b>
Change in Summer CO2	-7.400	1,000	115	1.0000	<b>-0.851</b>

#### Calculate emissions change in kilograms per year

Pollutant	= change/day in kg	X op.days per year	= change per year in kg
Summer VOC	-7.101	150	-1065.178
Summer NOx	-0.184	150	-27.653
Winter CO	-2.122	150	-318.333
Summer CO2	-0.851	150	-127.656

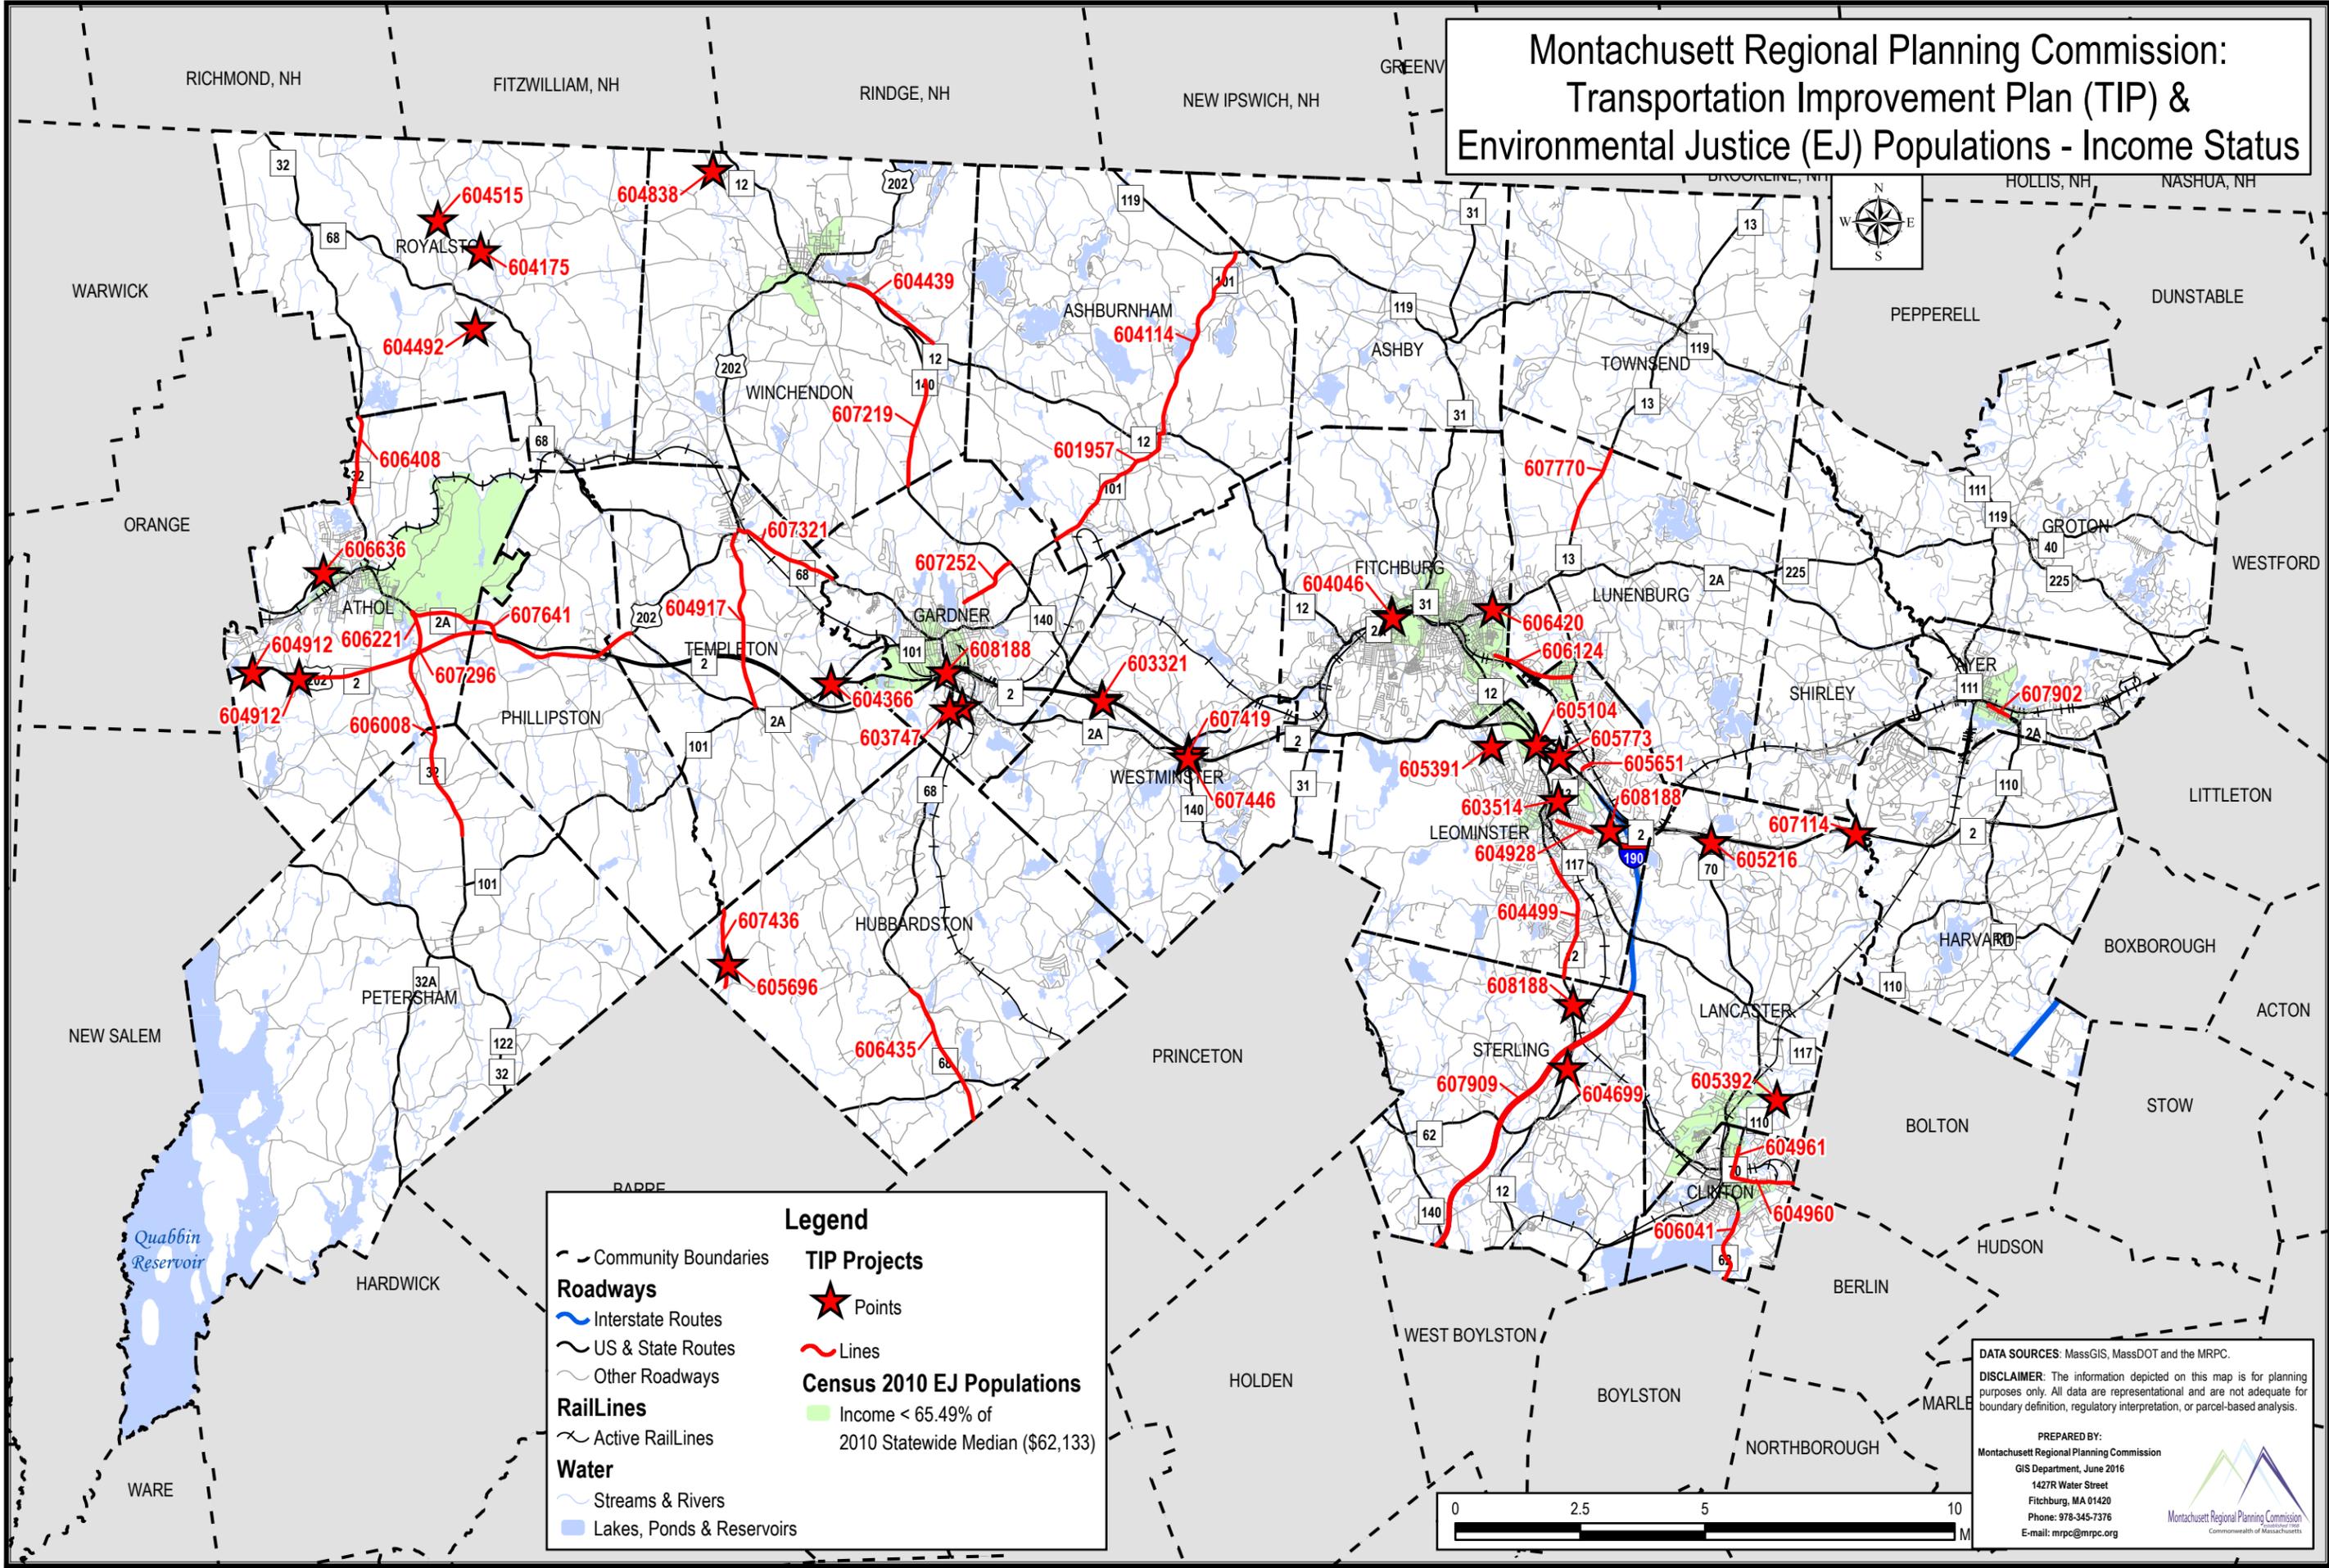

#### Calculate cost effectiveness (cost per kg of emissions reduced)

Pollutant	Total Project Cost	/ Project Life in years	/ reduction per year in kg	= annual cost per kg
Summer VOC	<b>\$500,000</b>	<b>12</b>	1065.178	<b>\$39</b>
Summer NOx	<b>\$500,000</b>	<b>12</b>	27.653	<b>\$1,507</b>
Winter CO	<b>\$500,000</b>	<b>12</b>	318.333	<b>\$131</b>
Summer CO2	<b>\$500,000</b>	<b>12</b>	127.656	<b>\$326</b>

## **APPENDIX C – EQUITY DISTRIBUTION ANALYSIS OF TIP PROJECTS MAPS**

**ATTACHMENT 1 - COMMENTS RECEIVED ON DRAFT TIP**

---

## COMMENTS AND RESPONSES

Action	
<p><b>Comment 1.</b></p>	<p>Letter from FHWA with the following comments:</p> <ul style="list-style-type: none"> <li>• Regulatory references on page i, MPO Endorsement and page 2 have changed and should be corrected.</li> <li>• Correction on page vii for Ex-Officio member; change Pamela Stephenson to Jeffrey H. McEwen for FHWA.</li> <li>• On page 2 related to section on the TIP process; recommend more information/description on the outreach efforts made to the public and Title VI populations as a way to demonstrate how the “process was carried out...” Also, will comments and their disposition be included in the final document?</li> <li>• Page 23 should have a narrative to introduce the following table and graph. The table also seems to “indicate total funds programmed by category rather than funding categories.</li> </ul>
<p><b>Response 1.</b></p>	<p>Following changes/updates made to the TIP:</p> <ul style="list-style-type: none"> <li>• Regulatory references corrected on page i and page 2 as indicated.</li> <li>• Ex-Officio member for FHWA updated and corrected.</li> <li>• Additional wording added to further clarify the outreach process as well as identifying the location of the Comments and Response section of the TIP in the Appendix of the final document.</li> <li>• Wording added to introduce this section. Additionally, the title of the section, table and graph have been updated to read “Summary of Programmed Funds by Funding Category” to more accurately reflect the information provided.</li> </ul>
<p><b>Comment 2.</b></p>	<p>Letter from MassDOT Office of Transportation Planning (OTP) with the following comments:</p> <ul style="list-style-type: none"> <li>• Page 7 - Please adjust Title VI Communities table to match UPWP Title VI Communities table, according to MassDOT's 2017 UPWP comment letter.</li> <li>• Page 10 - Please include the percentage of the Montachusett region categorized as Environmental Justice or Title VI to contextualize the Equity Analysis.</li> <li>• FFY 2017 <ul style="list-style-type: none"> <li>– 607252 - Revise programmed cost estimate to TFPCC of \$1,981,284. Please adjust TIP projects accordingly to remain in fiscal constraint.</li> </ul> </li> <li>• FFY 2018 <ul style="list-style-type: none"> <li>– 608188 - Revise programmed cost estimate to TFPCC of \$531,250, plus YOE factor.</li> </ul> </li> <li>• FFY 2020 <ul style="list-style-type: none"> <li>– 601957 - Revise programmed cost estimate to TFPCC of \$1,500,000, plus YOE factor.</li> </ul> </li> <li>• Page 54 - Please change "4 year program" to "5 year program."</li> <li>• Appendix A - Regional Priorities for which Funding has not been Identified <ul style="list-style-type: none"> <li>– Please consult communities listed in appendix to determine viability of projects listed and assure incorporation of healthy transportation and complete streets design directives.</li> </ul> </li> <li>• Appendix C - 2016 - 2019 TIP Greenhouse Gas Monitoring and Evaluation <ul style="list-style-type: none"> <li>– Please revise Appendix title to read 2016-2021.</li> <li>– Please update greenhouse gas emission results on statewide funded projects with the information that will be provided by the Office of Transportation Planning before endorsement.</li> <li>– For the purpose of ensuring compliance with 310 CMR 60.05: Global Warming Solutions Act Requirements for the Transportation Sector and the Massachusetts Department of Transportation, we have provided the following comments to be addressed in the GHG sections of your TIP (for more information on reporting, please see the guidance document issued by MassDOT in December 2015).</li> </ul> </li> </ul>

	<ul style="list-style-type: none"> <li>- 2017 Highway <ul style="list-style-type: none"> <li>o 606124 -All instances should have GHG impact descriptions.</li> <li>o The GHG C02 impact column should be blank.</li> </ul> </li> <li>- 2018 Highway <ul style="list-style-type: none"> <li>o 606124 -The GHG impact number should be listed in the last year it appears in the TIP.</li> </ul> </li> <li>- 2019 Highway <ul style="list-style-type: none"> <li>o The GHG C02 impact column should be blank.</li> <li>o 607446 - Please quantify with traffic operations tool.</li> </ul> </li> <li>- 2020 Highway <ul style="list-style-type: none"> <li>o The GHG C02 impact column should be blank.</li> </ul> </li> <li>- Completed Highway <ul style="list-style-type: none"> <li>o Please do not include qualitative projects in analysis.</li> <li>o Please quantify the following projects: 604699 and 604439.</li> </ul> </li> <li>- Completed Transit <ul style="list-style-type: none"> <li>o Please include GHG information for bus replacements and new service projects.</li> </ul> </li> <li>- Transit Tabs <ul style="list-style-type: none"> <li>o Please include a number for all bus replacements and new service projects.</li> <li>o The GHG C02 impact column should be blank.</li> </ul> </li> </ul>
<b>Response 2.</b>	<ul style="list-style-type: none"> <li>• Page 7 - Title VI Communities table and definitions corrected to coincide with the UPWP.</li> <li>• Page 10 - Equity Analysis revised and updated as indicated.</li> <li>• FFY 2017 <ul style="list-style-type: none"> <li>- 607252 – Cost revised.</li> </ul> </li> <li>• FFY 2018 <ul style="list-style-type: none"> <li>- 608188 - Cost revised.</li> </ul> </li> <li>• FFY 2020 <ul style="list-style-type: none"> <li>- 601957 - Cost revised.</li> </ul> </li> <li>• Page 54 – Corrected as indicated.</li> <li>• Appendix A - Regional Priorities for Which Funding Has Not Been Identified <ul style="list-style-type: none"> <li>- Comment noted. Communities to be contacted regarding projects.</li> </ul> </li> <li>• Appendix C - 2016 - 2019 TIP Greenhouse Gas Monitoring and Evaluation <ul style="list-style-type: none"> <li>- Correction made as noted.</li> <li>- Statewide figures added as indicated.</li> <li>- 2017 Highway <ul style="list-style-type: none"> <li>o Corrections made as indicated.</li> <li>o Corrections made as indicated.</li> </ul> </li> <li>- 2018 Highway <ul style="list-style-type: none"> <li>o Corrections made as indicated.</li> </ul> </li> <li>- 2019 Highway <ul style="list-style-type: none"> <li>o Corrections made as indicated.</li> <li>o 607446 – Insufficient information. Safety project rather than congestion issue.</li> </ul> </li> <li>- 2020 Highway <ul style="list-style-type: none"> <li>o Corrections made as indicated.</li> </ul> </li> <li>- Completed Highway <ul style="list-style-type: none"> <li>o Corrections made as indicated.</li> <li>o Corrections made as indicated to two projects.</li> </ul> </li> <li>- Completed Transit <ul style="list-style-type: none"> <li>o Updated.</li> </ul> </li> <li>- Transit Tabs <ul style="list-style-type: none"> <li>o Updated.</li> <li>o Corrections made as indicated.</li> </ul> </li> </ul> </li></ul>

<b>Comment 3.</b>	<p>Email from MassDOT District 3 with the following comment:</p> <ul style="list-style-type: none"> <li>Based on latest information related to FFY 2017 project #607252 Gardner Matthews Street; FFY 2018 project #608188 Gardner/Leominster/Sterling 3 Intersections; and FFY 2020 project #601957 Ashburnham Route 101, the District would recommend that the estimated costs within the Draft TIP be maintained.</li> </ul>
<b>Response 3.</b>	<p>Based on this feedback and OTP concurrence:</p> <ul style="list-style-type: none"> <li>Cost estimates for projects listed are corrected to reflect Draft TIP amounts.</li> </ul>
